Spoiled For Choice Stray Cat English Edition:

Evie's Diary Heather Cook, 2012-10-11 What do people think it's like living with an over-sexed ginger pumpkin, two mad humans and a cast of feline misfits? Forget about caring cats and hero cats. Evie is a bad cat with a bad cat's view of life. She is small, smart and black and lived wild until she was caught by the lumpy old cat rescuer who ended up adopting her. Evie's Diary reveals her contempt for her fellow felines and for her humans, the Earth Mother and Poor Roger, who are no match for Evie's manipulative little brain. Evie finds herself living with a weird array of felines including Benjamin Wobble, a porky ginger boy with mobility problems; Bella, a Persian resembling a hairy beetroot; and the ancient fur-covered coathanger Bonnie Bun Bun. Evie has harsh things to say about these creepy cats that suck up to the humans in return for goodies and cuddles but has a grudging admiration for the wild cats that rampage around the garden. The Earth Mother is involved in rescuing unwanted cats and kittens on behalf of the local Cats Protection Branch and Evie delights in tormenting the numerous waifs and strays. Occasionally she is impressed by the appalling behaviour of these temporary residents such as Frank, the blue-eyed vandal that imprisons the Earth Mother in the garage, and Griselda, the gorgeous girl that specialises in remodelling people's faces. The real worry of course is the power exercised by such a dreadful cat over the Earth Mother and Poor Roger, proving once and for all that humans are well down the pecking order and should just be grateful that cats like Evie condescend to share their lives. *Evie's Diary* is a humorous work of adult fiction narrated from a rescue cat's point of view that will appeal to feline lovers everywhere. Author Heather Cook has been inspired by James Herriot's *All Creatures Great and Small*. *The Ivan* Erin Eldridge, 2014-10-30 Berlin April 1945 A terrified young German woman huddles in a cellar as the final battle for the city rages overhead, bracing herself for the arrival of the rampaging Red Army. Her husband missing in France since D-Day is not there to shield her from the coming hell that WWII's endgame brings as triumphant Soviet soldiers make German women the targets of their vengeance. An unlikely savior arrives in the form of a young Soviet officer who takes her under his wing and with whom she begins a torrid affair. But what are his motives for seeking her out and protecting her? What will she do if her husband returns? Can she love two men simultaneously or will she have to choose? This story will grip you from the first page, make you laugh, make you cry and remain with you. *The Spoiled Earth* Jessica Stirling, 2013-04-25 This captivating first novel by the author who has been called Scotland's answer to Catherine Cookson tells a story of love and ambition set in Lanarkshire in the 19th century. The Lanarkshire colliery village of Blacklaw is a harsh and unforgiving place but it is home to the ambitious hard-working Stalker family. Until one morning in March 1875 when a mining disaster takes a hundred lives and changes their life forever. The underground explosion kills their menfolk but not their ambitions, their pride or their love for one another. Drew Stalker is the young man on whom their hopes rest. But it is on his sisters Kate and Mirren that the burden of saving their family will fall. A bestseller since it was first published, the compelling story of the Stalker family continues in *The Hiring Fair* and concludes in *The Dark Pasture*. **Publications**
