Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in Hong Kong deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Hong Kong will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law

**Principles and Practice in EU Sports Law** Stephen Weatherill, 2017 Principles Practice in EU Sports Law provides an overview of EU Sports Law In particular it assesses sporting bodies claims for legal autonomy from the ordinary law of states and international organisations Sporting bodies insist on using their expertise to create a set of globally applicable rules which should not be deviated from irrespective of the territory on which they are applied The application of the *lex sportiva* which refers to the conventions that define a sport s operation is analysed as well as how this is used in claims for sporting autonomy The *lex sportiva* may generate conflicts with a state or international institution such as the European Union and the motives behind sporting bodies claims in favour of the *lex sportiva* s autonomy may be motivated by concern to uphold its integrity or to preserve commercial gain Stephen Weatherill s text underlines the tense relationship between *lex sportiva* and national and

regional jurisdictions which is exemplified with specific focus on the EU The development of EU sports law and its controversies are detailed reinforced by the example of relevant legal principles in the context of the practice of sports law The intellectual heart of the text endeavours to make a normative assessment of the strength of claims in favour of sporting autonomy and the comparison between different jurisdictions and sports is evident Furthermore the enduring dilemma facing sports lawyers running throughout the text is whether sport should be regarded as special and in turn how far its special character should be granted legal recognition *Sports Law and Legislation* John Hladczuk,1991-12-11 This annotated bibliography covers the field of sports law and legislation in terms of national and international legal issues of importance in a comprehensive manner The 1 367 entries emphasize recent books articles and other important works in legal scholarship in recent years but also point to some earlier materials of particular significance historically This guide to research is designed for students and experts interested in all phases of the legal regulation of sports Every effort has been made to make the bibliography and its annotations easily accessible to the reader The volume is divided into thirty five chapters on various sports topics of major importance and issues that are key in sports law and legislation today Each chapter is then sub divided into various sections on noteworthy topics Author and subject indexes give the researcher further assistance
