Spotlight Canada Fourth Edition Bibliography:

Canadian Society in the Twenty-First Century, Fourth Edition Trevor W. Harrison, John W. Friesen, 2021-03-03

Confederation may have established Canada's nationhood in 1867 but the relationships framing Canada's modern existence go back much further. Employing a unique socio-historical perspective, *Canadian Society in the Twenty-First Century* examines three formative relationships that have shaped the country: Canada and Quebec, Canada and the United States, and Canada and Indigenous nations. Now in its fourth edition, this engaging text offers students an overview of Canadian society through a series of connections rather than a collection of statistics. Trevor W. Harrison and John W. Friesen weave together complex aspects of the nation's economic, political, and socio-cultural development. They guide readers to use this interdisciplinary framework to consider some of the tough questions that Canada is likely to face in adjusting to demands and challenges in the next few decades. Reflecting the most current scholarship in the field, this revised edition features new discussions on issues such as the current crisis of neo-liberal globalization, Canada's petroleum industry, global warming, the Wet'suwet'en dispute in 2020, and the COVID-19 pandemic. Exploring the unique character of Canada today, this text is a vibrant resource for sociology courses on Canadian society as well as courses in Canadian studies and Canadian history.

Gluten: New Symptoms for the New Millennium? Or Long-Standing Symptoms Now Being Recognized? Lucille Cholerton, 2012-02. Lucille Cholerton is a specialist in gluten sensitivity and coeliac disease. She and her three grown children all suffer from gluten sensitivity. Read her story in *Spotlight on Gluten: New symptoms for the new millennium. Or long-standing symptoms now being recognized*. Age is very pertinent to the subject of gluten sensitivity. This disorder should really be diagnosed in childhood, but if the diagnosis is missed, people can suffer for many years with unexplained symptoms when something that they are eating every day could be the root cause of their ill health. This book covers the symptoms that Cholerton and her children suffered and how they improved their health dramatically on a gluten-free diet. The author's research spans twenty years. In my research, I discovered that gluten may be responsible for many autoimmune disorders of which there are some eighty-eight documented. My doctors knew nothing about this, so I really had to be my own guinea pig. A former teacher, Lucille Cholerton is now a nutrition counselor and is writing her next books on gluten sensitivity. There is a dire need for better diagnosis and understanding of this disorder. She is married and lives in Durban, South Africa. She started the Gluten Intolerance Coeliac Support Group in Durban in 1995. For more information about gluten, visit <http://www.allergysa.org>. Publisher's website: <http://sbpra.com>.
