Virtue S Shield:

Statius and Virgil Randall T. Ganiban, 2007-02-08 At the end of the Thebaid Statius enjoins his epic not to compete with the divine Aeneid but rather to follow at a distance and always revere its footprints The nature of the Thebaid s interaction with the Aeneid is however a matter of debate This 2007 book argues that the Thebaid reworks themes scenes and ideas from Virgil in order to show that the Aeneid s representation of monarchy is inadequate It also demonstrates how the Thebaid s fascination with horror spectacle and unspeakable violence is tied to Statius critique of the moral and political virtues at the heart of the Aeneid Professor Ganiban offers both a way to interpret the Thebaid and a largely sequential reading of the poem

Bejczy, 2011-08-11 Despite its non-Christian origins the scheme of the cardinal virtues prudence justice fortitude and temperance found wide acceptance in medieval theology philosophy and religious literature. The present study is the first to investigate the history of the four virtues in the Latin Middle Ages from patristic times to the late fourteenth century. It examines the position of the cardinal virtues between religious and secularized conceptions of morality and attempts to reveal some distinctly Christian aspects of medieval virtue theory notwithstanding its manifest indebtedness to ancient ethics. Exploring learned and popularizing sources alike including much unedited material this study covers a broad spectrum of moral debate during ten centuries of Western intellectual history. Sir Gawain and the Classical Tradition E.L.

Risden, 2018-03-09 The 14th century English alliterative poem Sir Gawain and the Green Knight is admired for its morally complex plot and brilliant poetics. A chivalric romance placed in an Arthurian setting it has since received acclaim for its commentary regarding important socio-political and religious concerns. The poem's technical brilliance blends psychological depth and vivid language to produce an effect widely considered superior to any other work of the time. Although the poem is a combination of English alliterative meter romanticism and a wide-ranging knowledge of Celtic lore continental materials and Latin classics the extent to which Classical antecedents affected or directed the poem is a point of continued controversy among literary scholars. This collection of essays by scholars of diverse interests addresses this puzzling and fascinating question. The introduction provides an expansive background for the topic and subsequent essays explore the extent to which classical Greek Roman Arabic Christian and Celtic influences are revealed in the poem's opening and closing allusions themes and composition. Essays discuss the way in which the anonymous author of Sir Gawain employs figural echoes of classical materials cultural memoirs of past British tradition and romantic re-textualizations of Trojan and British literature. It is argued that Sir Gawain may be understood as an Aeneas Achilles or Odysseus figure while the British situation in the 14th century may be understood as analogous to that of ancient Troy.
