it is precisely here in this contemporary landscape that the cinema of poetry attempts to establish a space for itself exchanging the productive and industrial apparatus for the poetic stimulus of a sensory experience A Grammar of Cinepoiesis is a theoretical and practical guide to the cinema of poetry to its tools and forms It examines how the language of a cinema of poetry works both in its theoretical foundations and in its modes of representation and how it takes shape in the exemplary practice of Italian authors such as Pier Paolo Pasolini Michelangelo Antonioni Federico Fellini and the more recent Franco Piavoli and Matteo Garrone
