Palestine Environmentalists focus their rage on America even though China is the largest emitter of greenhouse gases The United Nations elevates countries such as Sudan to full membership on the UN s Commission on Human Rights even as the ethnic cleansing of Darfur proceeds Tracing the evolution of this belief system through human history ancient Greece to Marxism to the dawn of political correctness Prell shows what continuing with this collective mindset means for our future While America and its president increasingly exalt the meek and apologize for their power America s competitors and enemies are moving in a different direction China is projected to overtake the U S economically by 2027 and is ready to move into the position of hegemon and radical Islamists are looking to extend their global territory taking any sign of weakness as a chance to attack America must return to its founding spirit and underdog must stop now our nation depends on it
