The wealth of this information is like finding a chest of jewels you always knew was under the ocean but now here it is, a wonderful discovery that validates everything I knew was right about teaching to the needs of the individual learner.

Leslie Morris Reading First Coach Enhance your repertoire of literacy instructional strategies. Reading proficiency is the most fundamental learning skill critical to students' success. Renowned educators and authors Cathy Collins Block and Susan Israel present an indispensable guide that will give teachers and literacy coaches crystal clear understanding of the evidenced-based instructional practices required by Reading First Legislation, along with the tools to incorporate them. The authors further expand the support for enriched classroom practice through evidence and practical how-to advice for additional domains that show proven benefits for students, including writing, metacognition, and oral language. Through their explanations, teaching directions, and sample lessons, this resource bridges the gap between key research and daily reading classroom teaching. It also summarizes the educator-relevant provisions and requirements of Reading First and the No Child Left Behind federal programs. Each chapter includes short classroom-relevant research summaries for teachers. What teachers need to know about phonics, phonemic awareness, vocabulary, comprehension, and fluency. Lesson plans addressing each literacy domain. Components to assess learning. Strategies to differentiate for special learners, ELL, and advanced readers. **Reading First and Beyond** is packed with enriching ideas for all educators that will enhance their list of literacy instructional strategies, helping them achieve high levels of reading proficiency from all students.

The *Bloody Chasm* discusses the way that one of the most controversial moments in U.S. history, the First Reconstruction period, is portrayed in the literature written at the time of the event itself, specifically short stories, novels, and literary essays. The sociopolitical and political events portrayed within are in the framework of literary theory, neo-didacticism, and cultural psychological analysis, social psychology. Many of these events deal not only with sociopolitical history but also the sexual and violent episodes found in this literature, especially the Cult of Racial Sexuality and the Cult of Violence in Southern society. The conflict between the white supremacist type of racism and multiracial unity was a major part of the struggle between North and South after the War Against Secessionism. And since racism now exists in new forms, this book describes some of the old forms. Multiracial
