Johnny Long, 2004-12-17

Google the most popular search engine worldwide provides web surfers with an easy to use guide to the Internet with web and image searches language translation and a range of features that make web navigation simple enough for even the novice user

What many users don t realize is that the deceptively simple components that make Google so easy to use are the same features that generously unlock security flaws for the malicious hacker

Vulnerabilities in website security can be discovered through Google hacking techniques applied to the search engine by computer criminals identity thieves and even terrorists to uncover secure information

This book beats Google hackers to the punch equipping web administrators with penetration testing applications to ensure their site is invulnerable to a hacker s search

**Penetration Testing with Google Hacks**

explores the explosive growth of a technique known as Google Hacking

When the modern security landscape includes such heady topics as blind SQL injection and integer overflows it s refreshing to see such a deceptively simple tool bent to achieve such amazing results this is hacking in the purest sense of the word

Readers will learn how to torque Google to detect SQL injection points and login portals execute port scans and CGI scans fingerprint web servers locate incredible information caches such as firewall and IDS logs password databases SQL dumps and much more all without sending a single packet to the target

Borrowing the techniques pioneered by malicious Google hackers this talk aims to show security practitioners how to properly protect clients from this often overlooked and dangerous form of information leakage

First book about Google targeting IT professionals and security leaks through web browsing

Author Johnny Long the authority on Google hacking will

be speaking about Google Hacking at the Black Hat 2004 Briefing His presentation on penetrating security flaws with Google is expected to create a lot of buzz and exposure for the topic Johnny Long s Web site hosts the largest repository of Google security exposures and is the most popular destination for security professionals who want to learn about the dark side of Google
