Pomar, 2012-05 For the past thirty five years Dr Barbara Pomar has guided her clients on journeys into their past lives *Confessions of a Regressionist* presents both her personal account of her work with clients working to reverse past decisions to change the present and future and the theories behind the practice For some the very existence of past lives let alone the ability to reconnect with them is a point of spirited debate Even so Dr Pomar has helped many to come to their own conclusions about the validity of this technique Now she guides readers on using her techniques to live more fully or mold their destinies She also discusses theories on why and how past life regression is possible If you've ever struggled with how the possibility of past life regression fits within your faith Dr Pomar

The Map of the Psyche Timothy R. Nuske, 2013-10 A question that sometimes drives me crazy: am I or are the others crazy? Albert Einstein. For more than half his life, author Tim Nuske thought he was crazy. During a certain ten-year period and beyond, he could have fulfilled the diagnostic criteria for at least half of the close to 400 mental disorders described in psychiatry's billing bible, the DSM. Building on these experiences, Nuske presents a thought-provoking theory of the mind and how it relates to mental illness, a widespread social concern affecting countless millions. But are such experiences a real biological illness or brain disease? Are they caused by a chemical imbalance or genetic defect? And what does the mind have to do with a mental illness disorder/disease? Following a life-changing experience and spiritual awakening, Tim entered university to study psychology, intent on gaining a better understanding of his own madness and the mind and to help others with what he had learned. *The Map of the Psyche: The Truth of Mental Illness* is the result of four years of research and over a decade of personal experience with mental illness. He had to be mental to map the mind. Psychologists and philosophers have been trying to understand the mind for hundreds of years; Tim mapped it in under three plus a lifetime of prior experience. Offering an alternative to psychiatric labelling and drugging, he shares what he considers to be a more accurate and effective approach to mental health care. The truth is in the psyche. The truth is found within.

The Rite Matt Baglio, 2009-05-05 In 2005, a Vatican-run university opened its doors to priests from around the world, running a course for would-be exorcists. Looking for a story, Rome-based investigative journalist Matt Baglio attended the class and there met Father Gary Thomas, a Californian priest who had been chosen to attend by his bishop. Father Gary was concerned that many of the possessed were in reality suffering from psychological disorders best left to the care of doctors. How and why his view changed is the subject of this book. We follow Father Gary's year-long training with a senior exorcist as he is transformed from a doubter into a believer. Baglio gained unprecedented access to this world, including participating in exorcisms and culminating with Fr Gary's own fearsome confrontation with the Devil. Woven into his story is the fascinating history of exorcism, its rites and rituals, and the ways and reasons that people become possessed. Matt Baglio speaks to psychologists and detectives as well as Vatican clergy to wrinkle out the truth about this most Gothic of subjects. *THE RITE* is proof that the truth about demonic possession is not only stranger than fiction but far more chilling.
