Frohlich, 2009-04 Human nature holds the intelligence of life It provides a psychology

that is much stronger more effective and more reliable than the psychology society teaches us This psychology taps into the evolutionary survival experience of our species which occupied most of human history It was the period when the species evolved and our ancestor survived as a hunter and gatherer More than 99% of human history is encoded in the DNA of our genes and lastingly etched into the human psyche Our natural psychology the human psyche is the result of evolutionary adaptation The psyche provides the genetic capacity for behavioral mental and spiritual adaptation It supports the gratification of our needs And it contains the blueprint of human life The book is about human nature and human survival Human nature that is the human psyche has survival value The book introduces a metapsychology that refers to the Jungian archetypes and the survival capabilities inherent in the psyche Like all living organisms and forms of life we possess an innate capacity for survival By awakening this evolutionary intelligence we gain access to the primordial power and wisdom of the archetypal psyche This innate psychology transcends the cultural conditioning that has shaped us all and erects an entirely different reference system making us look at life in a new way We live in a world that reflects human nature and we are well equipped to survive in it Beyond that there is also something in us that resonates with a larger context Our psychological constitution relates us to the outer realities of nature and cosmos It is in this sense that we partake in the evolution of life on this planet and in the larger design of a cosmic universe This primary psyche is shared by all humanity as part of a common biological and psychological history

Understanding the Spirit of God Ken Hancherick, 2015-01-30 To understand God one must seek him in the Spirit God is not flesh and blood and not of this world therefore God must be separated from worldly things and comprehended in the Spirit When striving to understanding God in the spirit the questions of why how and when will be answered These questions

and more are answered in the pages of this book Who is God Where is the Garden of Eden Where will the New Jerusalem be What and where is Babylon Where did Cain get his wife Why are we here Why does God allow evil What are the images and likenesses God gave to man What is Sin and how does one commit sin How long did God take to create Heaven and Earth Why is Adam the first man The writings in the book Understanding the Spit of God are not meant for an interpretation of a Bible the purpose is to acknowledge and understand the Spirit of God I would like offer my sincere thanks to my friend Roland B Selma for his help in putting this manuscript together

The Survivors of Israel Mark Adam Elliott,2000 This study challenges the conventional view of scholars like E P Sanders that Late Second Temple Judaism was theologically nationalistic offering in its place a theory which argues that the intertestamental writings do not anticipate the salvation of all Jews but only of a faithful remnant within Israel Working carefully with the major books of the pseudepigrapha and the Dead Sea Scrolls Mark Adam Elliott shows that the authors of such works anticipated an imminent and scathing judgment of Israel that would exclude many or even most Israelites from the saved community This provocative finding not only confronts accepted perspectives on Late Second Temple Judaism but also suggests important implications for our reading of Paul and the New Testament
