

A close-up portrait of a woman wearing a traditional Middle Eastern headscarf (hijab) and a face veil (niqab). The fabric is intricately patterned in shades of red, brown, and beige. Only her eyes, which are a light brown color, are visible through the narrow slit of the veil. She has dark, well-defined eyebrows and long, dark eyelashes.

Dryden John Dryden,1878 *War in Human Civilization* Azar Gat,2008 Why do people go to war Is it rooted in human nature or is it a late cultural invention And what of war today is it a declining phenomenon or simply changing its shape This book sets out to find definitive answers to these questions in an attempt to unravel the riddle of war throughout human history *The English Translation of the Fadl Al-Bari* Shabbīr Aḥmad 'Uṣmānī,1974

The Spanish-American War 1895-1902 Joseph Smith,2014-05-12 Fought in both Caribbean and Pacific and turning on America s superior naval strength this short but decisive war had momentous consequences internationally It ended Spain s imperial power and the US emerged for the first time as an active force in world affairs acquiring amidst much domestic controversy an empire of her own in the Philippines Guam Puerto Rico and Cuba whose struggle against Spain had sparked the war Heavy with implications for twentieth century America the war is explored in its widest context in this engrossing and impressive study

Women and War in Antiquity Jacqueline Fabre-Serris,Alison Keith,2015-12-15 Women in ancient Greece and Rome played a much more active role in battle than previously assumed The martial virtues courage loyalty cunning and strength were central to male identity in the ancient world and antique literature is replete with depictions of men cultivating and exercising these virtues on the battlefield In *Women and War in Antiquity* sixteen scholars reexamine classical sources to uncover the complex but hitherto unexplored relationship between women and war in ancient Greece and Rome They reveal that women played a much more active role in battle than previously assumed embodying martial virtues in both real and mythological combat The essays in the collection taken from the first meeting of the European Research Network on Gender Studies in Antiquity approach the topic from philological historical and material culture perspectives The contributors examine discussions of women and war in works that span the ancient canon from Homer s epics and the major tragedies in Greece to Seneca s stoic writings in first century Rome They consider a vast panorama of scenes in which women are portrayed as spectators critics victims causes and beneficiaries of war This deft

volume which ultimately challenges the conventional scholarly opposition of standards of masculinity and femininity will appeal to scholars and students of the classical world European warfare and gender studies *Unstaging War, Confronting Conflict and Peace* Tony Fry, 2019-07-24 This book presents the concept of unstaging war as a strategic response to the failure of the discourse and institutions of peace This failure is explained by exploring the changing character of conflict in current and emergent global circumstances such as asymmetrical conflicts insurgencies and terrorism Fry argues that this pluralisation of war has broken the binary relation between war and peace conflict is no longer self evident and consequentially the changes in the conditions nature systems philosophies and technologies of war must be addressed Through a deep understanding of contemporary war Fry explains why peace fails as both idea and process before presenting Unstaging War as a concept and nascent practice that acknowledges conflict as structurally present and so is not able to be dealt with by attempts to create peace Against a backdrop of increasingly tense relations between global power blocs the beginnings of a new nuclear arms race and the ever increasing human and environmental impacts of climate change a more viable alternative to war is urgently needed Unstaging War is not claimed as a solution but rather as an exploration of critical problems and an opening into the means of engaging with them **More Than Mere Playthings** Julia C. Fischer, 2016-06-22 This book is inspired by the 2015 Italian Art Society sponsored conference sessions of the American Association of Italian Studies Its seven chapters span the art of ancient Etruria to twentieth century Italy and explore a variety of media including mirrors cameos treasury objects reliquaries ceramics and figurines Contributors approach the topic of the minor arts from a variety of interdisciplinary perspectives including reception use patronage gender issues propaganda and iconography The volume thus fills the lacuna in the scholarship of the minor arts and reveals that the minor arts are unique and worthy of study for their size preciousness patronage audience function portability and material Ultimately in revealing the importance of these objects the book shows that the division between the major and minor arts is no longer valid and that these objects of the minor arts hold as much significance as those of the major arts
