CHAPTER I On the 24th of January 1805 I made my debut on the parade as ensign in the first West York powdered and equipped in full uniform with an artificial tail of considerable length tied round my neck a cocked hat square to the front and a sword five inches shorter than the regulation made in proportion to my height being only four feet eleven inches and within one month of attaining my fourteenth year My diminutive figure soon attracted the attention of the leading company of the regiment composed of gigantic Yorkshire grenadiers and excited so much merriment among them and so increased my previous confusion that my eyes became dim and my feet seemed scarcely to touch the ground However some kind expressions from the officers who came forward and surrounded me and their gay appearance soon dispelled my inquietude A short time proved sufficient to instruct me in the duties required and the varied amusements caused the early months of my career to glide rapidly on Our uniform was plain faced with green but suddenly altered owing to an officer of expensive

habits who ordered a new coat to be made and covered with a profusion of gold lace in which he appeared at the mess table and so captivated his companions by his rich display that a unanimous burst of admiration broke forth Although the lieutenant colonel was as much averse from any thing of the sort as it was possible for any one to be the new pattern was carried by acclamation and a tacit consent wrung from the commanding officer intermixed with his hearty execrations Frequently after the alteration he used to wear his old coat at the mess table by way of a treat when to his extreme mortification the very officer who caused the change would throw out hints about officers being unregimentally dressed Such was the ingenuity of this individual that on being refused leave of absence he waited personally on a general and afterwards declared that he had represented the necessity of his appearance at home in such moving words that he not only obtained double the time originally asked for but also drew tears of sympathy from the general's eyes In the early part of the summer General Sir John Moore inspected us on our parade ground and was pleased to pass his high encomiums on the very fine appearance and steadiness of the men while under arms Indeed the militia at large were equal to the line² in the execution of their evolutions and discipline and were well adapted for the defence of their native shores at this epoch threatened with invasion by the French Had their services been required to repel such an aggression led on by experienced generals without doubt they would have proved themselves equal to cope with any troops in the world and those who had an opportunity of judging at that time will I am confident fully coincide with me and join in just admiration at the high state of perfection that national force had been brought to During the summer the troops in the numerous towns and camps in Kent were reviewed Our brigade left Ashford and joined two battalions of the rifle corps 95th³ at Bradbourne Lees and manuvred before the Duke of York The 43rd and 52nd light infantry regiments were organised under the immediate superintendence of Sir John Moore⁴ assisted by Major General McKenzie at Hythe and Shorncliff camp in the most exemplary manner Those corps were indeed the admiration of all for their discipline and the rapidity of their light movements all of which being executed on the moveable pivot by divisions or sections formed columns squares lines and echelon without a halt by merely marking time To be continue in this ebook

The Alignment
Steve Scott Sr.,2012-05-10 Map Detailing Ancient Olmec and Maya States that Rimmed the Gulf of Mexico It seems that the human race has an abiding tendency to know what surrounds our often routine mundane lives There is an even greater tendency to involve ourselves in perceived mystery particularly when it involves prophecy and doomsday scenarios The astronomical Alignment on December 21 2012 is just such an event that encompasses all the elements of a great mystery including doomsday prophecy and more The book chronicles what a group of noted scientists say we can expect to happen as the sun and earth align with the center of our own galaxy The reader is cautioned to hold on tight and be mentally prepared for mind bending surprises as a cabal of our best scientific minds slug it out over the portent of the Alignment during a symposium at the Institute for Advanced Study Princeton NJ
