Spun Tales 2 Volume :

The Jewish Story Finder Sharon Barcan Elswit, 2012-08-10 Storytelling as oral tradition and in writing has long played a central role in Jewish society. Family educators and clergy employ stories to transmit Jewish culture traditions and values. This comprehensive bibliography identifies 668 Jewish folktales by title and subject summarizing plot lines for easy access to the right story for any occasion. Some centuries old and others freshly imagined, the tales include animal fables, supernatural yarns and anecdotes for festivals and holidays. Themes include justice, community, cause and effect, and mitzvahs or good deeds. This second edition nearly doubles the number of stories and expands the guide's global reach with new pieces from Turkey, Morocco, Libya, Tunisia, and Chile. Subject cross references and a glossary complete the volume, a living tool for understanding the ever-evolving world of Jewish folklore.

Herbal Formularies for Health Professionals, Volume 2 Jill Stansbury, 2018. *Herbal Formularies for Health Professionals* is a five-volume set that serves as a comprehensive practical reference manual for herbalists, physicians, nurses, and allied health professionals. Dr. Jill Stansbury draws on her decades of clinical experience and her extensive research to provide an unparalleled range of herbal formulas. Organized by body system, each volume includes hundreds of formulas to treat common health conditions as well as formulas that address specific energetic or symptomatic presentations, including Dr. Stansbury's own formulas, formulas from herbal folklore, and formulas from Traditional Chinese Medicine. For each formula, Dr. Stansbury offers a brief explanation of how the selected herbs address the specific condition. The book offers many sidebars and user-friendly lists helping readers quickly choose which herbs are best for specific presentations and details traditional uses of both western herbs and traditional Asian herbs and formulas that are readily available in the United States. Volume II focuses on circulation and respiration, offering formulas and supporting information for treating a wide range of vascular, pulmonary, and respiratory conditions, including angina, coronary artery disease, hypertension, congestive heart failure, Reynaud's syndrome, anemia, coughs, bronchitis, cystic fibrosis, and emphysema. Each volume in the set also includes a discussion of how herbal therapy fits into an overall treatment plan or approach for a particular health condition, modern research findings on individual herbs and their mode of action in the body, lists of herbs that might be beneficial for specific conditions, advice on botanicals to avoid for particular conditions. Each chapter includes a materia medica section listing 50 or more individual herbs with tips on their properties, modes of action, and very specific symptoms each plant best addresses. These formularies are also a tutorial for budding herbalists on the sophisticated art of fine-tuning the precision of an herbal formula for the constitution and overall health condition of an individual patient rather than a basic diagnosis. The text aims to teach via example, helping clinicians develop their own intuition and ability to create effective herbal formulas.

Volume 1: Digestion and Elimination debuted the set in February 2018. Volume III: Endocrinology will be published in fall 2018. Volumes IV: Neurology, Psychiatry, and Pain Management and V: Immunology, Orthopedics, and Otolaryngology will be published in spring 2019.
