Spun Tales 2:

Output Lillian-Yvonne Bertram, Nick Montfort, 2024-11-05 An anthology of seven decades of English language outputs from computer generation systems chronicling the vast history of machine written texts created long before ChatGPT The discussion of computer generated text has recently reached a fever pitch but largely omits the long history of work in this area text generation as it happens was not invented yesterday in Silicon Valley This anthology Output thoughtfully selected introduced and edited by Lillian Yvonne Bertram and Nick Montfort aims to correct that omission by gathering seven decades of English language texts produced by generation systems and software The outputs span many different types of creative writing and include text generated by research systems along with reports and utilitarian texts representing many general advances and experiments in text generation Output is first and foremost a collection of outputs to be encountered by readers In addition to an overall introduction each of the excerpts is introduced individually and organized by fine grain genre including conversations humor letters poetry prose and sentences Bibliographic references allow readers to learn more about outputs and systems that intrigue them Although Output could serve as a reference book it is designed to be readable and to be read Purposefully excluded are human computer collaborations that were conceptually defined but not implemented as a computer system Copublished by Counterpath Press

Interactive Storytelling Ido A Iurgel, Nelson Zagalo, Paolo Petta, 2009-11-24 The rich programme of ICIDS 2009 comprising invited talks technical presentations and posters demonstrations and co located post conference workshops clearly underscores the event's status as premier international meeting in the domain It thereby confirms the decision taken by the Constituting Committee of the conference series to take the step forward out of the national cocoons of its precursors ICVS and TIDSE and towards an itinerant platform reflecting its global constituency This move reflects the desire and the will to take on the challenge to stay on the lookout critically reflect upon and integrate views and ideas findings and experiences and to promote interdisciplinary exchange while ensuring overall coherence and maintaining a sense of direction This is a significant enterprise The challenges sought are multifarious and must be addressed consistently at all levels The desire to involve all research

communities and stakeholders must be matched by acknowledging the differences in established practices and by providing suitable means of guidance and introduction exposition and direct interaction at the event itself and of lasting and increasingly living documentation of which the present proceedings are but an important part
