Sri Lanka In The Modern Age A History:

Sri Lanka in the Modern Age Nira Wickramasinghe, 2006-03-31 Since the late 1970s civil war has left Sri Lanka in an almost permanent state of crisis conventional histories of the country by liberal and Marxist scholars in the last two decades have thus tended to focus on the state's failure to accommodate the needs and demands of the minorities The entire history of the twentieth century has been tied to this one key issue Sri Lanka in the Modern Age offers a fresh perspective based on new research Above all the author has written a history of the peoples of Sri Lanka rather than a history of the nation state

Sri Lanka in the Modern Age, 2014 *Sri Lanka in the Modern Age* Nira Wickramasinghe, 2006 On the ethnic relations and politics in post 1978 Sri Lanka Sri Lanka in the Modern Age Nira Wickramasinghe, 2006 **Geographies of**

Nineteenth-Century Science David N. Livingstone, Charles W. J. Withers, 2011-12-01 In *Geographies of Nineteenth Century Science* David N Livingstone and Charles W J Withers gather essays that deftly navigate the spaces of science in this significant period and reveal how each is embedded in wider systems of meaning authority and identity Chapters from a distinguished range of contributors explore the places of creation the paths of knowledge transmission and reception and the import of exchange networks at various scales Studies range from the inspection of the places of London science which show how different scientific sites operated different moral and epistemic economies to the scrutiny of the ways in which the museum space of the Smithsonian Institution and the expansive space of the American West produced science and framed geographical understanding This volume makes clear that the science of this era varied in its constitution and reputation in relation to place and personnel in its nature by virtue of its different epistemic practices in its audiences and in the ways in which it was put to work **Political Leadership in an Era of Decolonisation** Malcolm Murfett, 2023-11-10 What is

leadership and why is it so important In what ways does it look very different in different contexts and in what ways does it look the same Malcolm Murfett brings together a range of emerging and established scholars to examine these questions in light of some of the mid twentieth century's most intriguing national leaders In a series of striking biographical chapters lessons are drawn from the apartheid era in South Africa Lee's remarkable socio economic transformation of Singapore Castro's revolutionary overhauling of Cuba and the playing out of Bandaranaike's populist agenda in Sri Lanka The book illuminates what Brezhnev and Nixon were looking for in the Cold War and what happened when the people turned against Nyerere in Tanzania the Shah in Iran and Ceau escu in Romania These case studies address what leadership meant for the individuals whose record in power is being examined These are not idealised portraits of how to do leadership but warts and all portrayals of exceptional individuals who scrabbled their way to the top and stayed there for several years during a period of great change Business schools have long studied the theoretical axioms of corporate leadership What this book does however is to move beyond the theory into the practical realm of politics and statecraft This is a fascinating book on

leadership that will be of interest for students researchers and practitioners studying leadership in business and politics as well as for students of global history decolonisation and the Cold War **A Concise History of the Modern World W.** Woodruff,2016-01-22 By investigating the major changes of world history during the past five hundred years this book provides the necessary global perspective to understand the geopolitical and geoeconomic changes facing us today We have reached a crucial transitional stage in world history in which the world will no longer be shaped by the single image of western modernism but increasingly by the image of all cultures and civilizations The need to take a world view which this book provides has become acute *Deterritorialised Identity and Transborder Movement in South Asia* Nasir

Uddin,Nasreen Chowdhory,2019-01-31 This volume is about migration across South Asia and the complex negotiation of borders by people and the states in the process A border is understood as a form of demarcation but it also opens up the flow of people goods and ideas of legality and illegality Borders are dynamic and dyadic in the interface of state and non state actors involved in border operations Consequently transborder movement becomes a complex web involving concerns of security trade militancy and questions of citizenship along with discourses of ghettoisation belonging and otherness Since the mid 20th century the South Asian region has witnessed growing social and political instability and breakdown of regional cooperation In this context the volume casts a wide interdisciplinary lens across South Asia and discusses economic migration as well as forced migration due to persecution and natural disasters It looks at how understandings of territoriality and border become blurred due to increasing transborder migration in the region how states in South Asia address transborder movements at both policy level and on the ground and how borderlands become spaces for illegal trade and informal economy in South Asia and for negotiations between states and refugees on identity and citizenship This highly topical volume is for a wide group of scholars and students interested in South Asia ranging from sociology anthropology political science history to interdisciplinary fields like migration studies peace and conflict studies and development studies

Ethnic Conflict Neal G. Jesse,Kristen P. Williams,2010-02-09 As ethnic groups clash the international community faces the challenge of understanding the multiple causes of violence and formulating solutions that will bring about peace Allowing for greater insight Jesse and Williams bridge two sub fields of political science in Ethnic Conflict international relations and comparative politics They systematically apply a levels of analysis framework looking at the individual domestic and international contexts to better explore and understand its complexity Five case study chapters apply the book s framework to disputes around the world and include coverage of Bosnia the Israeli Palestinian conflict Northern Ireland Sri Lanka and Sudan Never losing sight of their analytical framework the authors provide richly detailed case studies that help students understand both the unique and shared causes of each conflict Students will appreciate the book s logical presentation and excellent pedagogical features including detailed maps that show political demographic and cultural data **Routledge Handbook of Contemporary Sri Lanka** Kanchana N. Ruwanpura,Amjad Mohamed Saleem,2024-07-18 The Routledge

Handbook of Contemporary Sri Lanka offers a comprehensive survey of issues facing the island country and an overview delineating some key moments in the country's contemporary polity, economy and sociality. This book outlines aspects and influences foundational to understanding a country defined by its economic and political turmoil and rift with public distrust in today's shifting geopolitics. Chapters by various established scholars highlight this book's pivotal contribution in situating Sri Lanka's turmoil and deprivation in this current conjuncture. The handbook is structured in seven parts: Nations and Nationalism, Politics, State and Institutions, Economy and Political Economy, Work and Life, Environment and Environmental Politics, Society, Social Systems and Culture, Moment of Flux, Looking Ahead. Each part includes on average six chapters covering the social sciences and humanities to survey emerging and cutting edge areas of the study of Sri Lanka. Multi-disciplinary in focus, the book also includes an introductory section and concluding section which creates the space and platform for senior, mid-ranking and junior academics to engage in dynamic conversation with each other about contemporary Sri Lanka. Including scholarship from Sri Lankan experts, the handbook creates academic output which chimes with broader calls in academia on decolonising the academic landscape. An important reference work, this handbook will be of interest to scholars and students from wideranging academic disciplines and a focus on Sri Lanka, Asian and South Asian studies, sociology, environmental politics, development, labour, management, political economy and anthropology. A Liberation for the Earth A.M.

Ranawana, 2022-11-30 In the encyclical *Laodato Si* Pope Francis describes the earth as the new poor, opening it up as a place in need of liberation. The fate of the poor, the marginalised and those on the wrong side of the western colonial project is inextricably tied up with the fate of the planet. In *A Liberation for the Earth* Anupama Ranawana explores the nexus between climate, race and the liberative potential of the cross. Reflecting on the entanglement between colonialization and the destruction of the planet, she considers how this entanglement is played out and resisted within faith-based and secular ecological justice movements in Canada, Sri Lanka and the United Kingdom.
