Infanti, 2016-03-03 This volume presents a new approach to today s tax controversies reflecting that debates about taxation often turn on the differing worldviews of the debate participants For instance a central tension in academic tax literature which is filtering into everyday discussions of tax law exists between mainstream and critical tax theorists This tension results from a clash of perspectives Is taxation primarily a matter of social science or of social justice Should tax policy debates be grounded in economics or in critical race feminist queer and other outsider perspectives To capture and interrogate what often seems like

a chasm between the different sides of tax debates this collection comprises a series of pairs of essays Each pair approaches a single area of controversy from two different perspectives with one essay usually taking a mainstream perspective and the other a critical perspective In writing their contributions the authors read and incorporated reactions to each other s essays and paid specific attention to the influence of perspective on both the area of controversy and their contribution to the debate With contributions from leading mainstream and critical tax scholars this volume takes the first step toward bridging the gap between these differing perspectives on tax law and policy

**Congressional Record** United States. Congress,1939 *Monthly Catalog of United States Government Publications* ,2002-07 *Tax Treaty Dispute Resolution* Rachna Matabudul,2023-11-07 Stakeholders in the international taxation community agree that existing dispute resolution processes are in serious need of improvement and a global consensus must be achieved This book offers a potential restructuring of the tax treaty dispute resolution system based on a comparative analysis of the dispute resolution mechanisms under tax treaties as prescribed in the OECD and UN models on the one hand and the UN Law of the Sea Convention LOSC on the other This comparative study is the first of its kind and is premised on certain key geopolitical similarities that underpin the international tax regime ITR and the law of the sea regime while taking into consideration the differences in the institutional context of both regimes The author proposes a new tax treaty dispute resolution system based on the LOSC system for resolving multilateral tax disputes focusing on the following mapping of the institutional arrangements that make up the dispute resolution mechanisms to understand how each system works comparative analysis of the patterns of interaction and outcomes generated across the two dispute resolution systems to identify relevant aspects of the LOSC system that may be adapted in the ITR to improve tax treaty dispute resolution and analysis of the inclusivity levels across the decision making structures under each system to identify specific consensus building techniques that may facilitate the implementation of the new proposed tax treaty dispute

resolution system and also enhance international cooperation across the ITR The proposed restructuring of the tax treaty dispute resolution system expands the existing mutual agreement procedure and forms a comprehensive legal framework that aims to achieve a more effective predictable and equitable resolution of multilateral tax disputes in the 21st century ITR by striking a balance between countries right to tax sovereignty and the rule of law Just as the design of the dispute resolution system under the LOSC paved the way for universal consensus of the Convention among almost 160 countries the author s new tax treaty dispute resolution system also offers a solid foundation for consensus building towards a universal treaty in the ITR Everyone concerned with international tax dispute resolution whether policymaker in house counsel national tax authority official judge tax lawyer or academic will find the truly valuable analysis here not elsewhere
