Resisting Corporate Corruption Stephen V. Arbogast, 2008 As scandals at Enron WorldCom and elsewhere became public American business schools came under attack for inadequate ethical formation of the country's up and coming managers A less obvious but related problem has been the lack of realistic ethical training material Now this author a 32 year senior financial executive has adapted the Enron story to address this pressing need Drawing upon his own experience within a highly disciplined corporate culture the author has extracted from the wreckage case studies that chart Enron's descent into fraud and ask students to consider how it could have been different These 17 practical case studies don't just retell the Enron story they select pivotal moments when key individuals

faced decisions that could carry the firm across another threshold of ethical decomposition Students will get the opportunity to stand in the shoes of the young Ken Lay as he pondered how to handle Enron s first trading scandal They will have the opportunity to consider how to oppose Jeff Skilling s plans to introduce Mark to Market accounting and Andy Fastow s ever more aggressive use of Special Purpose Entities Finally they will have a chance to reconsider the tactics adopted by those who did resist Was for example Sherron Watkins right to take her concerns to Ken Lay or should she have made her case elsewhere
