

TAKS–M

- ▶ Should be used only for students in grade 11 during the 2012–2013 school year
- ▶ Grade 10 TAKS, TAKS (Accommodated), and TAKS–M tests will no longer be administered.

TAKS–Modified Participation Requirements

Students meeting special education criteria who have a disability that significantly affects academic progress in the grade-level curriculum and prohibits the achievement of grade-level proficiency within a school year will be assessed with TAKS–M.

Admission, review, and dismissal (ARD) committees may decide that a student's knowledge and skills in one or more subject areas can best be assessed with TAKS–M if the student meets all of the following eligibility criteria:

The student

- ▶ needs extensive modifications and accommodations to classroom instruction, assignments, and assessments to access and demonstrate progress in the grade-level Texas Essential Knowledge and Skills (TEKS).
- ▶ demonstrates academic progress in such a way that even if significant growth occurs during the school year, the ARD committee is reasonably certain that the student will not achieve grade-level proficiency as demonstrated by multiple valid measures of evidence.
- ▶ requires an alternate form of TAKS which is more closely aligned with instructional modifications in order to demonstrate knowledge of the grade-level TEKS, and
- ▶ meets some but not all of the following criteria:
 - requires supports to access the general curriculum that may include assistance involving communication, response style, physical access, or daily living skills.
 - requires direct, intensive, individualized instruction in a variety of settings to accomplish the acquisition, maintenance, and generalization of skills.
 - assesses and participates in the grade-level TEKS through activities that focus on prerequisite skills.
 - demonstrates knowledge and skills routinely in-class by methods other than paper-and-pencil tasks or
 - demonstrates performance objectives that may include real-life applications of the grade-level TEKS as appropriate to the student's abilities and needs.

knows Rather he points forward along a path toward changes in learning teaching and assessing that closely aligns with the Common Core State Standards He delves into the types of history knowledge the standards require illustrates how they can be applied in use in history learning contexts and theorizes how the standards might fit together cognitively to produce deep historical understandings among students in teaching learning contexts By providing a variety of assessment strategies and items that align with the standards and identifying rich useful assessment rubrics applicable to the different types of assessments he offers an important resource for social studies teachers and curriculum writers alike
