The first day and strategy which will help them start to think about their favorite holiday, and I'll be able to supply three reasons as to why it's their favorite. The final learning to a productive discussion, will allow me to learn around the classroom and listen my conversations to guarantee they understand how to give their opinion and at writing reason. My other essential literacy strategy, using a graphic organizer, like Common Core State Standards writing and language the standards. The writing ELA-LITERACY.W.1.1, helps my students in understanding how to write an opinion piece. I'm giving them a place to organize and write their thoughts down in a graphic organizer. The graphic organizer has separate sections for students to write their three supporting reasons. This helps

Many,Ruchi Bhatnagar,2017-12-01 Teacher education has long relied on locally developed assessments that lack reliability and validity Rigorous performance based assessments for preservice teachers have been advanced as one possible way to ensure that all students receive instruction from a high

quality teacher. Recently performance based assessments have been developed which focus on the application of knowledge of teaching and learning in a classroom setting. Our book explores factors related to the implementation of teacher performance assessments in varying state and institutional contexts. The contributors, teacher educators from across the country, focus on what was learned from inquiries conducted using diverse methodologies: quantitative, qualitative, self studies and mixed methods. Their research encompassed faculty supervisors, cooperating teachers and students' perceptions and concerns of teacher performance assessments, case studies of curricular reform and or resistance, analyses of experiences and needs as a result of the adoption of such assessments and examinations of the results of program alignment and reform. The chapters showcase experiences which occurred during high stakes situations in implementation periods prior to high stakes adoption and in contexts where programs adopted performance assessments as an institutional policy rather than as a result of a state wide mandate.

**Endorsements:** The chapters compiled for *Implementing and Analyzing Performance Assessments in Teacher Education* edited by Joyce E. Many and Ruchi Bhatnagar present a thoughtful look at the challenges and solutions embedded in the adoption of teacher performance assessments for preservice teachers. Most chapters feature edTPA, the most commonly used performance assessment now mandated in numerous states and used voluntarily by other programs across the country and reveal how such assessments shine a bright light on the problems of practice in teacher preparation: stressful timelines, faculty silos, communication with P-12 partners, etc. when new requirements disrupt the status quo. Each chapter tells a valuable story of performance assessment implementation and approaches that offset compliance in favor of inquiry and educative experiences for candidates and programs alike.

Andrea Whittaker, Ph.D., edTPA National Director, Stanford University Graduate School of Education, U.S. SCALE. Many and Bhatnagar launch the AAPE book series with a curated volume highlighting the contexts in which teacher educators implement and utilize performance assessments in educator preparation. Together the chapters present research from various viewpoints from candidates, faculty, university supervisors and clinical partners using diverse methodologies and approaches. The volume contributes significantly to the program assessment research landscape by providing examples of how performance assessments inform preparation at the intersection of praxis and research and campus and field. These chapters provide a critical foundation for teacher educators eager to leverage performance assessments to improve their programs.
