Courts, Regulators, and the Scrutiny of Economic Evidence Despoina Mantzari,2022-09-01 Courts Regulators and the Scrutiny of Economic Evidence presents the first systematic examination of economic regulation and the crucial role of economic evidence in regulatory authorities and courts This book brings together strands of scholarship from law economics and political science to explore two key themes the influence of economic evidence on the discretionary assessments of economic regulators and the limits of judicial review of economic evidence supplemented with comparative examination of both UK and US systems In light of the challenges posed by economic evidence Mantzari argues the appropriate scope of judicial review in the era of regulatory economics and what the optimal institutional response to the pervasiveness of economic evidence in regulation should be Building on comparative institutional analysis this book rejects single factor explanations such as the individual knowledge of judges in favour of a richer set of macro and micro level factors that shape the relationships between courts and regulators Mantzari argues that the recipe for adjudicating economic evidence requires a balance in which a degree of epistemic diversity is introduced in courts and deference is accorded to regulatory agencies on grounds of institutional competency The book combines theoretical doctrinal comparative and empirical analysis and it is written to be accessible to lawyers economists judges regulators policymakers and political scientists *Electronic Engineering* ,1963 ISSE 2010 Securing Electronic Business Processes Norbert Pohlmann,Helmut Reimer,Wolfgang Schneider,2011-01-17 This book presents the most interesting talks given at ISSE 2010 the forum for the inter disciplinary discussion of how to adequately secure electronic business processes The topics include Identity and Security Management Technical and Economical Aspects of Cloud Security Security Services and Large Scale Public Applications Smart Grid Security and Emerging Security Solutions Privacy and Data Protection Adequate information security is one of the basic requirements of all electronic business processes It is crucial for effective solutions that the possibilities offered by security technology can be integrated with the commercial requirements of the applications The reader may expect state of the art best papers of the Conference ISSE 2010 Learning RSLogix 5000 Programming Austin Scott,2020-07-06 Get to grips with the Logix platform Rockwell Automation terminologies and the online resources available in the Literature Library Key Features Build real world solutions using ControlLogix CompactLogix and RSLogix 5000 Studio 5000 Understand the different controllers and form factors offered by the ControlLogix and CompactLogix platforms Explore the latest changes in
