## **Practical Digital Evidence Part I Law And Technology Volume 1:**

**The Internet, Development, Human Rights and the Law in Africa** Danwood Chirwa, Caroline Ncube, 2023-03-17 This book tracks and critiques the impact of the internet in Africa. It explores the legal policy implications of and legal responses to the internet in matters straddling human rights, development, trade, criminal law, intellectual property and social justice from the perspective of several African countries and the region. Well-known and emerging African scholars consider whether access to the internet is a human right, the implications on the right to privacy, e-commerce, cybercrime, the opportunities and dangers of admitting electronic evidence, the balancing of freedom of expression with the protection of intellectual property and how different African legal systems address this tension. This book will be an invaluable resource for a wide range of stakeholders including researchers, scholars and postgraduate students, policymakers and legislators, lawyers and judicial officers, crime fighting agencies, national human rights institutions, civil society organisations, international and regional organisations and human rights monitoring bodies.

**Advances in Digital Forensics XIII** Gilbert Peterson, Sujeet Sheno, 2017-08-31 Digital forensics deals with the acquisition, preservation, examination, analysis and presentation of electronic evidence. Networked computing, wireless communications and portable electronic devices have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital evidence. Digital forensics provides the techniques and tools to articulate this evidence. Digital forensics also has myriad intelligence applications. Furthermore, it has a vital role in information assurance investigations of security breaches, yielding valuable information that can be used to design more secure systems. *Advances in Digital Forensics XIII* describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include Themes and Issues, Mobile and Embedded Device Forensics, Network and Cloud Forensics, Threat Detection and Mitigation, Malware Forensics, Image Forensics and Forensic Techniques. This book is the thirteenth volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of sixteen edited papers from the Thirteenth Annual IFIP WG 11.9 International Conference on Digital Forensics held in Orlando, Florida, USA, in the winter of 2017. *Advances in Digital Forensics XIII* is an important resource for researchers, faculty members and graduate students as well as for practitioners and individuals engaged in research and development efforts for the law enforcement and intelligence communities. Gilbert Peterson, Chair IFIP WG 11.9 on Digital Forensics, is a Professor of Computer Engineering at the Air Force Institute of Technology, Wright Patterson Air Force Base, Ohio, USA. Sujeet Sheno is the F. P. Walter Professor of Computer Science and a Professor of Chemical Engineering at the University of Tulsa, Tulsa, Oklahoma, USA. *Electronic Evidence* Paul R. Rice, 2005
