[Foundations of Airline Finance](#) Bijan Vasigh,Zane C. Rowe,2019-07-02 There are few industries that have had a more profound impact on business and society over the last century than aviation This book is an accessible up to date introduction to the current state of the aviation industry which provides readers with the tools necessary to understand the volatile and often complicated nature of airline

finance Understanding finance is critical in any industry however the financial track record of the airline industry places even more importance on effective financial management Foundations of Airline Finance provides an introduction to the basics of finance including time value of money the valuation of assets and revenue management and the particular intricacies of airline finance where there can be wild fluctuations in both revenues and costs The third edition of this text has been extensively updated to reflect the many changes in the air transport industry that have taken place since the publication of the second edition and features an expanded chapter on aircraft leasing and many new international case examples This thorough introduction to aviation finance is valuable reading as a general introductory financial text or as reading in specialized airline finance classes

Investments Herbert B. Mayo, 1997 Covering the same topics found in more advanced level texts Investments incorporates minimal math and is much more student friendly resulting in an increased excitement for and understanding of the basic investment course material It is the text of choice for the College of Financial Planning It includes a strong focus on the individual financial planner and features a Financial Advisor AEs Investment Case at the end of each chapter These short cases illustrate how text material applies to real investment decisions Financial calculators are introduced and utilized throughout the text with explanations employing both interest tables and the calculator It is also ideal for non majors courses
