Postdigital Positionality Sarah Hayes, 2021-07-19 This book challenges the notion that static principles of inclusive practice can be embedded and measured in Higher Education It introduces the original concept of postdigital positionality as a dynamic lens through which inclusivity policies in universities might be reimaged Much is written about Equality Diversity and Inclusion EDI based on an assumption that such principles are already established in educational institutions to ensure fairness and opportunity for all In this book readers are asked what does an airing cupboard have in common with cancel culture This opens a provocative debate concerning the disconnect between EDI policy agendas and the widespread digitalisation of society Written as Covid 19 has converged with existing political economic spaces of technology culture data and digital poverty Postdigital Positionality calls for more ecologically sustainable inclusivity policies *Moon Scotland* Sally Coffey, 2022-07-05 Dramatic

The Hollywood Reporter ,2008 *Transition Point: From Steam to the Singularity* Sean A. Culey,2018-11-06 We live in disruptive times The world is changing faster than ever before leaving people dazed businesses struggling economies floundering and societies fracturing But why Transition Point is the result of over five years of research to establish the answer a breathtaking tale of freedom unintended consequences and disruptive technologies that starts 1000 years ago and ends up in the second half of the 21st Century Starting with an examination into the drivers of technological change and the social economic and political factors that both enable or suppress it Transition Point explains why industrialisation happened where and when it did why progress comes in waves and why the technologies in the current wave such as robotics blockchain and AI are likely to be the most disruptive of all It then addresses the million dollar question what s next What impact will this wave have on our businesses our economies and most importantly on our society Culey explores how our current trajectory could result in a new golden age but also how it is just as likely to result in a digital dictatorship of compliance and constant surveillance Finally he explains why we may soon see Homo sapiens role as the dominant species come to an end As Klaus Schwab founder of the World Economic Forum stated We stand on the brink of a technological revolution that will fundamentally alter the way we live work and relate to one another In its scale scope and complexity the transformation will be unlike anything humankind has experienced before Transition Point explains why this is happening

what it means and why the decisions we make now will prove to be critical **Newsweek** ,2008
