Handbook of Research on Student-Centered Strategies in Online Adult Learning Environments Fitzgerald, Carlton J., Laurian-Fitzgerald, Simona, Popa, Carmen, 2018-06-08 As traditional classroom settings are transitioning to online environments teachers now face the challenge of using this medium to promote effective learning strategies especially when teaching older age groups Because adult learners bring a different set of understandings and skills to education than younger students such as more job and life experiences the one size fits all approach to teaching does not work thus pushing educators to create a student centered approach for each learner The Handbook of Research on Student Centered Strategies in Online Adult Learning Environments is an important resource providing readers with multiple perspectives to approach issues often associated with adult learners in an online environment This publication highlights current research on topics including but not limited to online competency based education nontraditional adult learners virtual classrooms in public universities and teacher training for online education This book is a vital reference for online trainers adult educators university administrators researchers and other academic professionals looking for emerging information on utilizing online classrooms and environments in student centered adult education

Teacher Development for Content-Based Language Education Susan Ballinger, Ruth Fielding, Diane J. Tedick, 2024-09-10 This book fills a large gap

in our understanding of how to prepare teachers for the challenging but increasingly popular task of integrating content and language instruction. It brings together findings on content based teacher education from Africa, Asia, Australia, Europe, and North America in order to inform researchers and teacher educators and enable them to play a critical role in the continued success of such programs. It offers a solid grounding in theories and applications of content based approaches with empirical studies investigating teacher identity, materials design, use of cognitive discourse functions, and best practices for teacher education. Responding to the growing popularity of content based programs and the shortage of qualified teachers for these contexts, this book promotes teacher-researcher collaboration and provides support for trainee teachers, in-service teachers, and course leaders.

A Trainer's Guide for Participatory Learning and Action Jules N. Pretty, 1995. Offers a comprehensive background to the principles of adult learning. This book focuses on the facilitation skills necessary for effective training. It describes group dynamics and how to build interdisciplinary teams. It summarises the principles of participatory learning and action.

Handbook of Research on Coping Mechanisms for First-Year Students Transitioning to Higher Education Aloka, Peter, Mukuna, Kananga Robert, 2023-02-20. Transitioning from secondary to higher education is not a natural step for many first-year students in higher education institutions. There is a considerable difference between being a student at school and university, and previous research has highlighted the difficulties faced by first-year university students during their transition phase. Higher education institutions and their departments acknowledge the challenges faced by new students and they differ in their approach to coping with the issue; each seeks to find the most effective solution for its students. To reduce the withdrawal rate during the first year of college, higher education providers are expected to apply transition programs to help students transition. The Handbook of Research on Coping Mechanisms for First-Year Students Transitioning to Higher Education presents a comprehensive account of the dynamics in higher education institutions and culture shock for new students and analyzes models and theories of adjustment of new students in higher education institutions. Covering key topics such as gender, institutional support, and success factors, this reference work is ideal for administrators, higher education professionals, researchers, scholars, academicians, practitioners, instructors, and students.

It provides a global perspective on intercultural communication while allowing students to contextualise their knowledge with relevant examples, applications and perspectives. Recognising that students in Southern Africa come from diverse cultural, ethnic and linguistic backgrounds, it provides discussion of issues and perspectives they can apply to everyday life and to broader contexts.

International Handbook on Giftedness Larisa Shavinina, 2009-08-12. If you publish, you are trying to create something that is original that stands out from the crowd. Above all, you want to create something you are proud of. Richard Branson, 2002, p. 57. After the publication of my bestselling International Handbook on Innovation, publishers from around the world began to invite me to work on new books with them. When Springer invited me to prepare the International Handbook on Giftedness, I was on a maternity leave with my 3 months old and my 5 year old was just starting school. I, however, had wanted to prepare such a Handbook for a long time and was waiting for just the right moment to dive right into such an endeavor. The time had come and I agreed to prepare a Handbook that would expose readers to new views, great discoveries and significant advancements of scientific knowledge exactly as Richard Feynman advised. See his opening quote at the beginning of the introductory chapter. I have always been convinced of the paramount significance of the topic of giftedness and gifted education to the world as a whole. There is no doubt that gifted individuals are and will be extremely important to society. One way to understand the history of human civilization is via inventions and discoveries of the gifted. All human cultural development builds on the amazing technological, scientific, educational and moral achievements of the human mind. Today, people increasingly realize that gifted and talented individuals are even more important than in the past.

New Interchange Student's Book 2B Jack C. Richards, Jonathan Hull, Susan Proctor, 1997-10-28. New Interchange is the second edition of Interchange, one of the world's most successful English courses for adult and young adult learners at the beginning to intermediate levels. New Interchange incorporates suggestions from students and teachers using the first edition from around the world. It offers more comprehensive grammar presentation and practice, more opportunities to develop listening skills and build fluency, as well as fresh new content in every unit. New Interchange features high interest topics, a focus on both accuracy and fluency, and a multi-skills syllabus integrating themes, structures, functions, vocabulary and pronunciation. The underlying philosophy of the course is that language is best learned when used for meaningful communication. New Interchange is written in American English but reflects the fact that English is the major language of international communication and is not limited to any one country, region or culture.
