Geohistory, Capitalist Development, and South Africa Kevin R. Cox, 2025-02-27 In South Africa it is thirty years since apartheid was overthrown The country now teeters on being a failed state But South African history cannot be explained in isolation from developments in the rest of the world Nor can it be understood in terms of change from a regime where race seemed all determining to one where race is supposed to be a matter of indifference Rather this book argues that the key to understanding South Africa lies in the logics

of capitalist development These explain why capitalist domination has taken racial forms and why global conditions have been so important

Nasser's Peace Michael Sharnoff, 2017-05-23 Gamal Abdel Nasser was arguably one of the most influential Arab leaders in history As President of Egypt from 1956 to 1970 he could have achieved a peace agreement with Israel yet he preferred to maintain his unique leadership role by affirming pan Arab nationalism and championing the liberation of Palestine a common euphemism for the destruction of Israel In that era of Cold War politics Nasser brilliantly played Moscow Washington and the United Nations to maximize his bargaining position and sustain his rule without compromising his core beliefs of Arab unity and solidarity Surprisingly little analysis is found regarding Nasser s public and private perspectives on peace in the weeks and months immediately after the 1967 War Nasser s Peace is a close examination of how a developing country can rival world powers and how fluid the definition of peace can be Drawing on recently declassified primary sources Michael Sharnoff thoroughly inspects Nasser s post war strategy which he claims was a four tiered diplomatic and media effort consisting of his public declarations his private diplomatic consultations the Egyptian media s propaganda machine and Egyptian diplomatic efforts Sharnoff reveals that Nasser manipulated each tier masterfully providing the answers they desired to hear rather than stating the truth that he wished to maintain control of his dictatorship and of his foothold in the Arab world

General Jan Smuts and His First World War in Africa makes use of multiple archival sources and the official accounts of all the participants to provide a long overdue reassessment of Smuts's generalship and his role in furthering the strategic aims of South Africa and the British Empire in Africa during World War I

Nigeria-South Africa Relations and Regional Hegemonic Competence Oluwaseun Tella, 2018-11-27 This book examines the relations between Nigeria and South Africa and their implications for regional influence across the African continent

With the largest and third largest economies in the region and a historical status as the major peacemakers on the continent it is often argued that Africa's fate is directly linked to the success or failure of these regional powers. While there is widespread reference to each state's capabilities and regional influence in the extant literature little analysis is offered on relations between Nigeria and South Africa and their impact on regional governance and provision of public goods on the continent. This book attempts to fill the gap by engaging issues such as the hegemonic competence of the states, their credentials for a permanent seat at the UNSC, their efforts towards regional integration and their efforts towards combating the dark side of globalization including climate change, drug trafficking and xenophobia. It also engages a gender perspective to these states' relations as well as their experiences of transitional justice. Providing an in-depth comparative analysis of the two so-called African powerhouses, this volume will be of interest to policy makers, academics and students interested in Nigeria and South Africa's foreign policy, regional powerhood and the African peace, security and development agenda.

General Jan Smuts And his First World War in Africa (1914-19-17) David Brock Katz, 2022-08-24. An engaging, well-written and meticulously researched military biography. Tim Stapleton, Professor, Department of History, University of Calgary. Jan Smuts grabbed the opportunity to realise his ambition of a Greater South Africa when the First World War ushered in a final scramble for Africa. He set his sights firmly northward upon the German colonies of South West Africa and East Africa. Smuts's abilities as a general have been much denigrated by his contemporaries and later historians, but he was no armchair soldier. He first learned his soldier's craft under General Koos de la Rey and General Louis Botha during the South African War, 1899-1902. He emerged from that conflict immersed in Boer manoeuvre doctrine. After forming the Union Defence Force in 1912, Smuts played an integral part in the German South West African campaign in 1915. Placed in command of the Allied forces in East Africa in 1916, he led a mixed bag of South Africans and imperial troops against the legendary Paul von Lettow Vorbeck and his Schutztruppen. His penchant for manoeuvre warfare and mounted infantry freed most of the vast German territory from Lettow Vorbeck's grip. *General Jan Smuts and his First World War in Africa* provides a long overdue reassessment of Smuts's generalship and his role in furthering the strategic aims of South Africa and the British Empire during this era.

NL ARMS Netherlands Annual Review of Military Studies 2019 Wim Klinkert, Myriame Bollen, Marenne Jansen, Henk de Jong, Eric-Hans Kramer, Lisette Vos, 2019-07-16. This book has as its subject matter the academic education of officers and builds on the signing of the Bologna Declaration in 1999 by twenty-nine European ministers for Education and Science who thereby agreed to coordinate higher education across Europe by, for instance, the implementation of the Bachelor's and Master's system. In the meantime, military academies have also introduced the BaMa system into their programs for officers' education, which marks a transition from the old days when officers' education took place within a national military system under military command and was firmly grounded in principles, traditions and needs as professed by the Ministries of Defence and the armed forces in particular. So the Bologna Declaration can be seen as crucial leverage for

the development of in house academic degree programs as a fundamental part of officers education With this volume the editors of NL ARMS 2019 strive to offer a platform to both academics and military and civilian practitioners as well as to combinations of these to reflect and share their thoughts on officers education before and after Bologna both in The Netherlands and abroad To this end controversies and challenges affecting various aspects and systems of officers education have been grouped into five themes Respectively the first four themes comprise institutional settings and change educational philosophy educational challenges and reflective practices and didactical solutions The fifth theme international perspectives provides insights into the strategic environments and challenges faced by sister academies as well as ways to further officers education across Europe such as offered by Erasmus programs All the editors of this year s volume are affiliated with the Faculty of Military Sciences of the Netherlands Defence Academy in Breda The Netherlands
