Life Behind the Lobby Pawan Dhingra,2012-04-25 Indian Americans own about half of all the motels in the United States Even more remarkable most of these motel owners come from the same region in India and although they are not all related seventy percent of them share the surname of Patel Most of these motel owners arrived in the United States with few resources and broadly speaking they are self employed self sufficient immigrants who have become successful they live the American dream However framing this group as embodying the American dream has profound implications It perpetuates the idea of American exceptionalism that this nation creates opportunities for newcomers unattainable elsewhere and also downplays the inequalities of race gender culture and globalization immigrants continue to face Despite their dominance in the motel industry Indian American moteliers are

concentrated in lower and mid budget markets Life Behind the Lobby explains Indian Americans simultaneous accomplishments and marginalization and takes a close look at their own role in sustaining that duality Life on an Emotional High Therapy,2007-05-24 I describe this as my book of stimulation in poetry with experiences of my life for both men and woman to enjoy In this book I am divulging myself through poetry in a way different from others Stretching your imagination of what you think poetry is while expressing myself on many different levels At the same time I'll be giving you a hint at my experiences in conversations and thoughts with others Just me riding the roller coaster of life screaming and hollering waving my hands and having a good time with writing All of this while giving you secrets written in my poetry to leave you guessing and wondering is this about her her life her relationships in love life and marriage Who was that about Just making you wonder So many thoughts in my writing that it will make you wonder about me wonder about you and your life All of my writings are from my heart to my pen with a modest amount of modification and a minuscule amount of proofreading limited enough to keep my writings as real as possible In writing straight from your pen it's never perfect and sending my book to be professionally proofread I thought would make my thoughts too unreal too commercial take some of my personality or zest out of my book I wanted my writings to be as if someone was really speaking through writing Even if my grammar was terrible it would be the real me The corrections I have done are straight from spell check from my laptop giggle now we all know how that could be but I did it anyway I've exposed me and my thoughts in a way that has allowed me to sky rocket to another level to another me I've extended to you Theaology THE STUDY OF THEA Thea and the life experiences she has surrounded herself in along with the joys of living to learn what life really was about and not the just the pretty picture we all want and or pretend it is My painting of life is an explosion of time painted in yellows and reds Colors of laughter and smiles that are to abundant to count Colors that allow me to stand in the wings of life and spilling it out to you in expression thoughts and short stores of which will allow you to think twice about your life experiences and enjoy every single moment that god has extended to you Now what I am asking for from each one of you while reading my book is to enjoy my book with an open mind Don't tear it down too much but read what I have to say and live in the joy of my development of it Let me explain briefly some of the chapters in this book Chapter one is about loves hurts joys and change that we all can relate to In reading you will get a picture of what love and life is about a picture of the happiness the sadness the ups and downs and the just plain sick and tired of love My poetry will express this in every way I could imagine Poetry of love so deep you will need a shovel to recover from it because it pulls you in and makes you shake your head to say I've been there In this chapter there is a poem written in the form of a short story called An Un produced Movie of Romance It is a screen play rewind yes that's how I am going to describe it It's the perfect story for the question where is this love going Chapter two well I've devoted this to the men it's my own unique message for them My way of saying you are spectacular even when we don't tell you you shine I speak in this chapter as if I am one of the boys I've removed that I am woman hear me roar

attitude and I've learned that I couldn't roar without them as loud as I can now. In this chapter I play with 2 words I've created: do luscious and flow. Read it; you'll see what I mean: nothing but fun thoughts. My other favorite poem is *The Struggle*; it has a part one and a part two. Some of the women who read these 2 poems may find objection to what I have written. But I had to say what I thought a man would say or wanted to say. *The Struggle* was written *LIFE*, 1955-01-24. *LIFE* Magazine is the treasured photographic magazine that chronicled the 20th Century. This book explores the changing food culture of the urban American South during the Jim Crow era by examining how race, ethnicity, class, and gender contributed to the development and maintenance of racial segregation in public eating places. Focusing primarily on the 1900s to the 1960s, Angela Jill Cooley identifies the

cultural differences between activists who saw public eating places like urban lunch counters as sites of political participation and believed access to such spaces a right of citizenship and white supremacists who interpreted desegregation as a challenge to property rights and advocated local control over racial issues Significant legal changes occurred across this period as the federal government sided at first with the white supremacists but later supported the unprecedented progress of the Civil Rights Act of 1964 which among other things required desegregation of the nation's restaurants Because the culture of white supremacy that contributed to racial segregation in public accommodations began in the white southern home Cooley also explores domestic eating practices in nascent southern cities and reveals how the most private of activities cooking and dining became a cause for public concern from the meeting rooms of local women's clubs to the halls of the U S Congress
