Congress,1980 **Tropical Splendor** Hap Hatton,1987 **George Merrick, Son of the South Wind** Arva Moore Parks,2015-11-03 The story of developers selling off the Sunshine State is as old as the first railroad tracks laid across the peninsula But seldom do we hear about the men who actually built a better Florida In *George Merrick Son of the South Wind* South Florida historian Arva Moore Parks recounts George Merrick s quest to distinguish himself from the legions of developers who sought only profit Helping to create the land boom of the 1920s

Merrick transformed his family's citrus grove just outside of Miami into one of the finest planned communities the master suburb of Coral Gables. With a team of architects and city planners he built homes for the growing middle class in the Mediterranean Style using local stone and he invested in public infrastructure by designing and building parks and pools, trolley lines and waterways. He pledged land for a library and the university that would become the University of Miami. Hailed in national publications as a visionary, Merrick was green before green, a New Urbanist before the movement even had a name. As Coral Gables and Merrick prospered, he reinvested in education, affordable housing and other progressive causes. But the Great Depression ravaged Miami and Merrick's idealism cost him his fortune. He died with an estate worth less than \$400. With unprecedented access to the Merrick family and mining a treasure trove of Merrick's personal letters, documents, speeches and manuscripts, Parks presents the remarkable story of George Merrick and the development of one of the nation's most iconic planned cities.

Insiders' Guide® to Miami Dara Bramson, 2011-08-16 A first edition *Insiders Guide to Miami* is the essential source for in-depth travel and relocation information to Florida's top tropical destination. Written by a local and true insider, this guide offers a personal and practical perspective of Miami and its surrounding environs.

Teamsters Metropolis Ryan Patrick Murphy, 2025-07-29 In the 1950s the International Brotherhood of Teamsters empowered poor immigrants who had grown up in the crowded blocks of the central city to move upward and outward to comfortable suburbs. It delivered unprecedented benefits to workers, especially to those in retail services and light manufacturing, locking in hourly pay that bought the patio furniture, sets, the pontoon boats and the station wagons that defined the consumer culture of the decade. Yet suburban comfort came with strict new institutions that defined the middle class culture of the era: the nuclear family, heterosexual monogamy, the husband breadwinner and the dependent wife. Many workers yearned for the pleasures they left behind in the core of the industrial city, even as poor people, people of color and queer people were locked out of the suburbs. *Teamsters Metropolis* argues that the union achieved unprecedented organizing success in the immediate postwar period precisely because its members defied bourgeois cultural standards. They wore overly flamboyant clothes, instigated jarringly violent confrontations, used aliases, extorted money, flouted the law and often blended friendship, sex and love in a way that challenged the boundaries of heteronormativity. Perhaps no one exemplified this freedom more than Jimmy Hoffa, who delivered better pay and worker conditions to marginal workers while also using coercive tactics, embezzling money and colluding with the Mafia. Rather than impeding the union's growth, unruly organizing, illicit business techniques and dissident cultural practices appealed to prospective members and offered an opportunity to circumvent some of the suburban regulations helping the International Brotherhood of Teamsters become the largest U.S. union of the mid-twentieth century.
