

How to Write a Historical Fiction: Step-by-Step Guide

Historical fiction is a unique genre that combines real historical events with fictional elements. It allows readers to immerse themselves in the past and experience history through the eyes of fictional characters. In this guide, we will explore the process of writing a historical fiction story, drawing inspiration from the popular novel "Wednesday Wars".

Understanding Historical Fiction

Before we dive into the writing process, let's first understand the characteristics of historical fiction. This genre requires a blend of research and imagination to create a believable story set in a particular historical period. Here are some key characteristics to keep in mind:

1. **Historical Accuracy:** Historical fiction must be rooted in real events, people, and places. Research is crucial to ensure accuracy and authenticity in your story.
2. **Character Development:** Create compelling characters that readers can connect with. These characters should reflect the time period and social norms of the historical setting.
3. **Vivid Setting:** Transport your readers to a different time and place. Bring the historical setting to life through descriptive language and sensory details.
4. **Plot and Conflict:** Develop an engaging plot that intertwines with historical events. Conflict can arise from personal struggles, societal issues, or the historical backdrop itself.

Drawing Inspiration from "Wednesday Wars"

"Wednesday Wars" by Gary D. Schmidt is a captivating historical fiction novel set in the 1960s. It follows the character Holling Hoodhood, a seventh grader, as he navigates school, family, and the social changes of the time. Let's explore how this story can inspire our own historical fiction writing.

Research the Historical Context

To create an authentic historical fiction story, start by researching the time period you wish to write about. In the case of "Wednesday Wars," delve into the 1960s and explore the significant events, cultural trends, and social issues that characterized that era. This research will provide a solid foundation for your story and help you incorporate historical accuracy.

How I Write Historical Fiction Richard Blake, 2014-10-17 I could have called this short book How to Write Historical Fiction It would arguably have been an accurate title The book does tell you how to seek your inspiration and where to do research and how to find and develop characters and how to write dialogue and description and how to integrate the description of background into the main narrative It even says something about how to find a publisher On the other hand the title I considered and rejected would have created a misleading view of the book When I pay for a How to book I expect something that takes me chapter by chapter though the matter of what I want to learn How to Write Historical Fiction needs to start with a chapter of encouragement for example how Philippa Gregory and Steven Saylor have made a pile of cash from their historical novels and how you can too It needs to end with a list of the agents who handle historical fiction Between these points there must be practical advice on how to write coherent prose and how to proof a typescript How I Write Historical Fiction is a much better title This book is a set of essays interviews and reviews written between 2011 and 2014 Its most obvious faults are a degree of repetition and a relentless puffing of my own works I think these are pardonable faults When you are answering the same questions or making the same points repetition is inevitable As for the puffing I wrote mainly to bring people s attention to my novels and it would have defeated this object not to mention them In further mitigation I suggest that the book does contain a great deal of sound advice about the craft of historical fiction I have spent years dealing with the problems faced by everyone who tries to write an historical novel How I deal with them has brought me much acclaim More to the point it has encouraged Hodder and these have been translated so far into Spanish Italian Greek Slovak Hungarian Chinese and Indonesian Perhaps I am doing many things wrong At the same time I must be doing some things right Such being the case I offer these reflections as encouragement and advice to anyone who is thinking to enter the most honourable craft that is at once the dearest joy of my life only excepting my womenfolk and the main provider of my daily bread Richard Blake Deal October 2014 Post Scriptum As a further deterrent or incentive to the reader I must say that neither this book nor my novels are for the prudish Because I do not excel in such things and because the Internet is filled with the writings of those who do

excel I prefer to avoid close descriptions of the sexual act What I do not avoid is trying to see things as they are Nor do I seek to judge these things by any of the standards that have been fashionable during my lifetime One of the interviews republished here is with Ulixes which is Mexico's leading LGBT magazine This began as an interview with an Irish gay magazine It was not published in Ireland The editor had one look through it and told me with rising outrage and hysteria that his mother had been profoundly shocked by the explanations of the Latin sexual vocabulary and by the translations from the Epigrams of Martial If you are disgusted by the English meanings of words like fello and irrumo and paedico and futuo and cinaedus and pathicus and tribas this is not a book I would encourage you to read Otherwise you can find a complete listing of my novels in the Appendix
