Writing Effective Course Assignments Elia Shabani Mligo, 2017-05-11 Non degree and undergraduate students are both inexperienced essay writers who need close guidance to become effective writers One of the puzzles which they encounter at the college and university after reporting for studies is the course assignments offered to them by their lecturers which demand them to be critical thinkers and argumentative essay writers In most colleges and universities lecturers provide to students broad questions to answer in the form of essays either in group or individual assignments How should they turn the broad assignment questions provided to them by their lecturers into specific researchable topics for essays How should they handle literature in order to obtain valuable information to answer the provided question How should they construct an informed and convincing argument using the collected information as evidence This book concerns these and other related questions With its clear illustrations the book is designed to be a self study guide and to offer solutions to many struggling students in colleges and universities At the same time the book can be helpful for lecturers to instruct their students how to write effective course assignments in their respective courses *Guidebook to Academic Writing* Cornelia C.

Writing as a Way of Staying Human in a Time that Isn't Nate Mickelson, 2019-01-30 The human element of our work has never been more important As Robert Yagelski explains in *Writing as a Way of Being* 2011 the ideological and social pressures of our institutions put us under increasing pressure to sacrifice our humanity in the interest of efficiency These problems only grow when we artificially separate self world and mind body in our teaching and everyday experiences Following Yagelski and others *Writing as a Way of Staying Human in a Time that Isn't* proposes that intentional acts of writing can awaken us to our interconnectedness and to ways in which we as individuals and in writing communities might address the social and environmental challenges of our present and future world Featuring essays drawn from a range of

contexts including college composition and developmental reading and writing professional and legal writing middle school English dissertation projects academic conferences and an online writing group the collection outlines three ways writing can help us stay human caring for ourselves and others honoring the times and spaces of writing and promoting justice Each essay describes specific strategies for using writing as a means for staying human in inhuman times The authors integrate personal stories descriptions of classroom assignments and activities and current research in writing studies Their work shows that writing can contribute to personal social and political transformation by nurturing vulnerability compassion and empathy among students and instructors alike
