## Preparation Guide

This preparation guide helps you prepare for diagrammatic reasoning assessments. It provides guidance on how best to approach the assessment, allowing you to give your best possible performance.

### Why are Aptitude Assessments used?

Employers often use aptitude assessments as part of their assessment procedures for the selection and development of staff. Research has shown that they are powerful predictors of performance at work.

#### Assessments help you to:

- demonstrate your strengths
- be assessed fairly on job relevant criteria
- find out more about your strengths and development needs
- make future career decisions based on your abilities

#### Assessments help employers to:

- select people best suited to the demands of the job
- identify areas where individuals might benefit from further development
- obtain objective information about people's abilities

## Instructions

On the following pages are some practice questions which are similar to those you will be asked in the assessment. Completing these will help you to understand the types of questions used and gain experience in taking ability tests.

For each set of questions there is a panel and an illustration. The panel describes the effect of various operators in words. The illustration shows the operators working. Use the information in the panel and illustration to answer the questions that follow. Your task is to identify which of the answer options presented could replace the '?' that indicates a missing INPUT, PROCESS or OUTPUT. Some operators change the shape (triangle/circle), the size (big/small) or the shading (light/dark) of the symbols in the INPUT sequence. Other operators delete, duplicate or re-order symbols. The effect of each operator is either fully defined in the panel or partly defined. Where the process consists of more than one operator, the operators are applied in sequence from left to right.

To answer each question, clearly fill in with a pencil the option you have chosen in the answer section at the bottom of each page. Have some paper to hand in case you want to make notes.

When you complete the actual assessment, you will not be able to use erasers to change your answer. Please see the instructions below on how to indicate your answers:

#### Instructions for completing the answer sheet:

Press hard and completely fill in the inner circle.

To change an answer, put a cross through the circle you wish to change and then fill in the correct circle.

If you want to change back to your original answer, cross out the incorrect answer and completely fill the outer circle of the previous answer.

The actual test is strictly timed, so time yourself and try to complete all 16 questions within 4 minutes to practice working against the clock.
