Historical Foundations of Educational Psychology John A. Glover,Royce R. Ronning,2013-11-11 This volume represents a beginning effort to compile a history of educational psychology The project began innocuously enough several years ago when we decided to add mon material about the history of educational psychology to the undergraduate course we were teaching What seemed like a simple task became very complex as we searched in vain for a volume dealing with the topic We ended up drawing on various histories of

psychology that devoted anywhere from a few paragraphs to several pages to the topic and on a very few articles addressing the issue We were startled frankly by the apparent lack of interest in the history of our field and decided to attempt to compile a history ourselves As is the case with any edited volume the contributing authors deserve credit for its positive features They uniformly made every effort asked of them and taught us much about educational psychology Any errors or omissions are our responsibility alone Literature 1987, Part 2 U. Esser,H. Hefele,I. Heinrich,W. Hofmann,D. Krahn,V. R. Matas,L. D. Schmadel,G. Zech,2013-11-11 Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of the literature concerning all aspects of astronomy astrophysics and their border fields It is devoted to the recording summarizing and indexing of the relevant publications throughout the world Astronomy and Astrophysics Abstracts is prepared by a special department of the Astronomisches Rechen Institut under the auspices of the International Astronomical Union Volume 44 records literature published in 1987 and received before February 15 1988 Some older documents which we received late and which are not surveyed in earlier volumes are included too We acknowledge with thanks contributions of our colleagues all over the world We also express our gratitude to all organizations observatories and publishers which provide us with complimentary copies of their publications Dr Siegfried B hme retired from his duties as co editor of Astronomy and Astrophysics Abstracts on December 31 1987 Since 1950 he participated in the bibliographic work of the institute He served as a reviewer for the Astronomischer Jahresbericht and became one of the editors of Astronomy and Astrophysics Abstracts in 1969 After his retirement in 1975 he took care of particularly the Russian literature on a voluntary basis for 12 years It is a pleasure to thank Siegfried B hme for his valuable contributions Starting with Volume 33 all the recording correction and data processing work was done by means of computers The recording was done by our technical staff members Ms Helga Ballmann Ms Christiane Jehn Ms Monika Kohl Ms **Department of Defense Authorization for Appropriations for Fiscal Year 2014 and the Future Years Defense Program** United States. Congress. Senate. Committee on Armed Services,2014 Synthesis of Subsonic Airplane Design E. Torenbeek,2013-06-29 Since the education of aeronautical engineers at Delft University of Technology started in 1940 under the inspiring leadership of Professor H J van der Maas much emphasis has been placed on the design of aircraft as part of the student's curriculum Not only is aircraft design an optional subject for thesis work but every aeronautical student has to carry out a preliminary airplane design in the course of his study The main purpose of this preliminary design work is to enable the student to synthesize the knowledge obtained separately in courses on aerodynamics aircraft performances stability and control aircraft structures etc The student's exercises in preliminary design have been directed through the years by a number of staff members of the Department of Aerospace Engineering in Delft The author of this book Mr E Torenbeek has made a large contribution to this part of the study programme for many years Not only has he acquired vast experience in teaching airplane design at university level but he has also been deeply involved in design oriented research e.g. developing rational design methods and systematizing

design information I am very pleased that this wealth of experience methods and data is now presented in this book

Coastal Zone Management Imperative for Maritime Developing Nations B.U. Haq, Gunnar Kullenberg, Jan H.

Stel, 2013-03-09 Anthropogenic transformation of the coastal zone continues at a steady pace especially in the developing maritime countries where coastal resources are often crucial to national economies However exploitation of these resources is often indiscriminate ill planned or carried out without adequate scientific knowledge This leads to rapid resource depletion and often irreversible environmental degradation The 1992 Rio de Janeiro UN Conference on Environment and Development recognized the expediency of an integrated and sustainable use of all coastal resources functions and services grounded on sound scientific data The present volume is based on the 1994 international workshop Integrated Coastal Zone Management and brings together contributions by leading specialists both on basic concepts and on applications of coastal management The work is divided into six parts dealing with the conceptual framework of ICZM regional and global aspects of coastal management environmental assessment in ICZM capacity building and technology transfer monitoring and environmental analysis and case studies and status of ICZM plans The book also incorporates an interactive ICZM planning module COSMO which can be of use in designing a management plan for a coast Attention is also given to long term environmental effects of present day actions It is hoped that COSMO will prove an additional learning tool for ICZM practitioners and enhance the value of the book This work is intended to give a broad coverage of conceptual and technical aspects of ICZM and will be of use to operational executives as well as students of ICZM environmental economists policy makers and senior managers in the international development agencies and governmental and non governmental organizations It can be recommended as a textbook and as a reference work

Literacy in School and Society Elizabetta Zuanelli Sonino, 2013-06-29 The function and notion of literacy may be considered the keystone a filigree principle underlying the educational social and cultural organization of the societies of the twentieth century It is therefore interesting to try to pinpoint the notion and its implications at the turn of the century by focusing the attention of scholars from various disciplines sociolinguistics psychology psycholinguistics and pedagogy on the subject This is the purpose of this volume which originated from an interdisciplinary meeting on trends in and problems of research on early literacy through mother tongues and or second languages held in Venice under the auspices of the University of Venice and in particular of the Seminario di Linguistica e di Didattica della Lingue and the Centro Linguistico Interfacolta and the Municipality of Venice together with UNESCO and AILA A first far reaching question touches on the role assigned to or fulfilled by mass literacy in modern society The concept of literacy considered as a social achievement an essential component in the process of education to be institutionally prompted and controlled fluctuates between two opposite poles A polemic destructive view considers the notion and the educational practices connected with it as a potent instrument of social control a tool for social reproduction and consensus On the other side a plurifunctional constructive view considers the acquisition and maintenance of different languages via educational institutions as a concrete

possibility for the defense and maintenance of cultural pluralism and identity be it social ethnic or religious *Problems and Interventions in Literacy Development* P. Reitsma, L. Verhoeven, 2013-03-09 From August 19 23 1996 an international expert meeting on problems and interventions in literacy development took place in Amsterdam The meeting was organized by Pieter Reitsma Paedologisch Instituut Vrije Universiteit Amsterdam and Ludo Verhoeven University of Nijmegen and funded by the Dutch National Science Foundation Various experts in the field of literacy problems from 12 countries attended the meeting while presenting a paper based on current perspectives and recent research A selection of the papers being presented is now integrated into a single academic reference after being edited and updated The editors wish to thank all contributors to this volume for redrafting their original papers The present volume aims to integrate recent research in field of literacy problems and interventions into a single academic reference The volume will capture the state of the art in the rapidly expanding field of literacy problems and interventions The target group of readers of this volume includes researchers and graduate students in language and literacy development Moreover the book is of interest for practitioners working in the field of literacy problems Pieter Reitsma and Ludo Verhoeven vii LIST OF CONTRIBUTORS Peter Afflerbach University of Maryland 2304C Benjamin Building College Park MD 20742 USA Jesus Alegria Universite Libre de Bruxelles LAPSE CP 191 Avenue F Roosevelt 50 B 1050 Bruxelles Belgium Elisabeth Arnbak Department of General Applied Linguistics Njalsgade 80 DK 2300 Copenhagen Denmark Janwillem Bast Paedologisch Instituut VU Amsterdam Postbus 303 1115 ZG Duivendrecht The Netherlands **Handbook of Research on Educational Communications and Technology** J. Michael Spector, M. David Merrill, Jan Elen, M. J. Bishop, 2013-07-03 The 4th edition of the Handbook of Research on Educational Communications and Technology expands upon the previous 3 versions providing a comprehensive update on research pertaining to new and emerging educational technologies Chapters that are no longer pertinent have been eliminated in this edition with most chapters being completely rewritten expanded and updated Additionally new chapters pertaining to research methodologies in educational technology have been added due to expressed reader interest Each chapter now contains an extensive literature review documenting and explaining the most recent outstanding research including major findings and methodologies employed The Handbook authors continue to be international leaders in their respective fields the list is cross disciplinary by design and great effort was taken to invite authors outside of the traditional instructional design and technology community Environmental Issues in Automotive Industry Paulina Golinska, 2013-09-03 The automotive industry is one of the most environmental aware manufacturing sectors Product take back regulations influence design of the vehicles production technologies but also the configuration of automotive reverse supply chains The business practice comes every year closer to the closed loop supply chain concept which completely reuses remanufactures and recycles all materials The book covers the emerging environmental issues in automotive industry through the whole product life cycle Its focus is placed on a multidisciplinary approach It presents viewpoints of academic and industry personnel on the

challenges for implementation of sustainable police in the automotive sector *Radio Techniques for Probing the Terrestrial Ionosphere* Robert D. Hunsucker, 2013-03-07 In the years since the pioneering efforts of Sir Edward Appleton M A F Barnett G Breit and M A Thve many radio techniques have been employed to investigate the terrestrial ionosphere The purposes of this book are to examine the basic physical interaction process of radio waves with the ionosphere scrutinize each of the radio techniques currently in use and describe the elements of each technique as well as assess their capabilities and limitations I have included some of the history of each technique since we often tend to forget the efforts of the pioneers The interaction of radio waves with the terrestrial ionosphere has been described in considerable detail in several classic treatments e g Ratcliffe 1959 Alpert 1963 Budden 1961 and Davies 1965 Rishbeth and e g Flock 1979 Davies Garriott 1969 and in other more recent books 1990 Hargreaves 1979 and Budden 1985 A few of the radio techniques have been described by Hargreaves 1979 and a book by Giraud and Petit 1978 has also included discussion of several of the techniques The WITS handbook No 2 1989 also contains description of several radio techniques
