• **Prepayment penalty**

In the first year after the loan is closed, the borrower is discouraged from making any additional payments toward principal. For every \$100 paid extra toward principal in the first year, the borrower must pay \$105. Prepayment penalties are often more complex than this; for example, a borrower might have to pay six months' interest on any amount prepaid that is in excess of 20 percent of the original principal amount. A borrower might have to hire an accountant to determine if a prepayment penalty is figured correctly.
