Patient Safety and Quality in Pediatric Hematology/Oncology and Stem Cell Transplantation Christopher E. Dandoy,Joanne M. Hilden,Amy L. Billett,Brigitta U. Mueller,2017-06-06 This volume provides a concise yet comprehensive overview of patient safety issues and quality improvement for the pediatric hematology oncology stem cell transplant practice The book reviews patient safety in complex healthcare delivery systems delineates the various safety issues affecting pediatric hematology oncology patients and discusses quality improvement methods and improvement science that allow the reader to implement and sustain change in their home institution The text also explores mechanisms to measure quality and safety outcomes allowing the provider to implement proven processes shown to minimize harm to patients Written by experts in the field Patient Safety and Quality in Pediatric Hematology Oncology and Stem Cell Transplantation is a valuable resource for healthcare professionals treating pediatric hematology oncology and stem cell transplant patients Infection Prevention in the Intensive Care Setting Misti Ellsworth,Luis Ostrosky-Zeichner,2024-10-08 The National Healthcare Safety Network NHSN system reports that approximately 1 in every 31 hospitalized patients develop at least one hospital acquired infection HAI Deaths associated with these infections are estimated to be up to 99 000 per year In 2015 alone there was an

estimated 687 000 HAIs linked to the acute care hospital setting According to the WHO in high income countries 30% of these infections occur in the Intensive Care Unit ICU Patients in the ICU often have multiple risk factors that increase the risk of developing a HAI These risk factors include the need for indwelling catheters and other medical devices patient related factors such as underlying comorbidities immunosuppression and the need for recurrent hospitalizations Nosocomial infections lead to significant morbidity and mortality Patients who develop infections in the ICU have double the mortality and morbidity when compared to noninfected patients In addition to the increased morbidity and mortality cost of care and length of stay is also significantly higher Despite widespread adoption of infection prevention practices in the ICU setting preventable infections still occur daily in ICUs across the country This book provides a comprehensive review of infection prevention in the ICU setting including new and cutting edge techniques to prevent HAIs This book serves as a reference text for physicians nurses and quality leadership working in the ICU setting It discusses the most recent definitions from NHSN for CLABSI CAUTI and SSI as well as the current recommendations for preventing device and surgery associated nosocomial infections In addition there are chapters on other basic infection prevention practices such as how to identify unit HAI outbreaks Finally it addresses unique aspects of infection prevention in special populations such as neonates pediatric patients and immunocompromised hosts as well as explore unique infections risks in trauma surgical and burn units Written by experts in the field Infection Prevention in the Intensive Care Setting is a valuable resource for intensive care physicians infectious disease physicians intensive care nurses infection prevention practitioners pulmonary specialists residents in internal medicine and pediatrics as well as pediatric and adult infectious disease fellows

Essentials for Quality and Safety Improvement in Health Care Christopher Ente, Michael Ukpe, 2022-02-01 Patient safety and quality improvement in health care remain a global priority Subpar performance in health care however is still common more than a decade after the christening of patient safety in Africa The core principle of safety and quality improvement systems is to identify and assess the root cause of failures in order to learn from them and devise a means to improve and to avoid recurrence This book is designed to encourage facilitate and empower healthcare workers in the development and implementation of strategically driven patient safety and quality improvement initiatives for safer healthcare systems and healthcare facilities in low and middle income countries LMICs of Africa It also highlights some of the profound challenges and barriers to designing and implementing patient safety and quality improvement interventions or programmes in the region and reiterates the need to remain focused and determined to work out solutions with confidence and overcome these barriers In the book chapters highlight six essential components crucial for achieving evolutionary progress in safety and quality improvement in a healthcare system Standard operating procedure Audit Research Safety management Quality management Evaluation Practical steps in planning and conducting these six essential components are outlined with some specific features to aid learning and facilitate their implementation The authors have experience and expertise in the medical practice gained in

Africa and a decade of knowledge and experience from consultancy work in safety and quality improvement in health care within and outside the region Essentials for Quality and Safety Improvement in Health Care A Resource for Developing Countries is authored for both medical professionals and those from other professions who are interested in and enthusiastic about patient safety and healthcare quality and therefore willing to build a career in this field It is relevant to all health institutions health and non health workers and can be used as a checklist while rendering quality and safe health care A
