Against the Unspeakable Naomi Mandel, 2006 In *Against the Unspeakable* Naomi Mandel offers a paradigm of reading that will enable the crucial work on comparative atrocities and the representation of suffering to move beyond the impasse of unspeakability. Discussing a variety of texts such as Toni Morrison's *Beloved*, Steven Spielberg's *Schindler's List* and William Styron's *Confessions of Nat Turner*, Mandel asks: What does the evocation of the limits of language enable writers, authors, and critics to do?

Shades of the Planet Wai Chee Dimock, Lawrence Buell, 2018-06-05 In a globalizing age, studying American literature in isolation from the rest of the world seems less and less justified. But is the conceptual box of the nation dispensable? And what would American literature look like without it? Leading scholars take up this debate in *Shades of the Planet*, beginning not with the United States as center but with the world as circumference. This reversed frame yields a surprising landscape alive with traces of West Africa, Eastern Europe, Iran, Iraq, India, China, Mexico, and Australia. The Broadway musical *Oklahoma!* has aboriginal antecedents; Black English houses an African syntax; American slavery consorts with the Holocaust; Philip Roth keeps company with Milan Kundera; the crime novel moves south of the border; and R. P. Blackmur lectures in Japan. A national literature becomes haunted by the world when that literature is seen extending to the Pacific, opening up to Islam, and accompanying African American authors as they travel. Highlighting American literature as a fold in a planet-wide fabric, this pioneering volume transforms the field, redrawing its institutional as well as geographical map. The contributors are Rachel Adams, Jonathan Arac, Homi K. Bhabha, Lawrence Buell, Wai Chee Dimock, Susan Stanford Friedman, Paul Giles, David Palumbo Liu, Ross Posnock, Joseph Roach, and Eric J. Sundquist.

The Comparative Perspective on Literature Clayton Koelb, 2019-06-30 Few would deny that comparative literature is rapidly moving from the periphery toward the center of literary studies in North America, but many are still unsure just what it is. *The Comparative Perspective on Literature* shows, by means of twenty-two exemplary essays by many of the most distinguished scholars in the field, how comparative literature as a discipline is conceived of and practiced in the 1980s. Nearly all of them published here for the first time, the essays discuss and themselves reflect significant changes at the core of the field as well as evolving notions as to what comparative literature is and should be. The volume editors, Clayton Koelb and Susan Noakes, have included essays that address the scope and concerns of comparative literature today, historical and international contexts of the field, and the relationship of literary criticism to other disciplines, as well as affording comparative perspectives on current critical issues.

The Number Sense of Nineteenth-Century British Literature Stefanie Markovits, 2025-01-12 *The Number Sense of Nineteenth-Century British Literature* considers how the avalanche of printed numbers characterizing the period affected its literature. It looks at the influence of a variety of cultural and historical movements such as the rise of statistics and of democratic Liberalism, and concurrent developments in mathematics. This

book takes as its starting point and focus the presence of actual numbers ordinal and cardinal Arabic Roman and spelled out in words within the century's literary texts. It is through the deployment of such figures that texts display their number sense; similarly, readers develop the faculty of number sense by paying careful attention to their presence. And contemplation of a text's use of numbers while frequently pointing to specific historical contexts also enables more fundamental recognitions about how literature makes meaning. The Number Sense asks what kinds of work intellectual and ethical literature's numerical figures perform. Why are some writers especially prone to include numbers? What affordances do they wield in various literary environments and against the backdrop of the numbery nineteenth century? When do textual numbers really count and when do they ask us to keep count? How do they stage contests between the one and the many individuals and collectives? How do they relate to formal aspects of works like plot and character narrative and lyric? Lingering over literary measures illuminates the way numbers help shape texts into the recognizable forms we call genres. To that end, the book considers the works of poets like Tennyson, Wordsworth, and Byron and of novelists working in a broad range of genres including Jane Austen, George Gissing, Charles Dickens, Anthony Trollope, Lewis Carroll, Bram Stoker, Wilkie Collins, and Thomas Hardy. The numbers embedded in their fictions and verse can serve both as valves releasing cultural pressures and as fulcrums, places where pressures coincide to create new forms of literary agency.

The Achievement of William Styron Robert K. Morris, Irving Malin, 2008-06-01 The publication of *Sophie's Choice*, one of William Styron's greatest literary achievements, generated a new spark in the critical discussion of the author and is the main emphasis of the interview with Styron and one of the additional essays in this revised edition. The interview was conducted by Robert K. Morris; the essay on *Sophie's Choice* by Richard Pearce. Other essays include Jane Flanders on Styron's southern myth, Philip W. Leon on Styron's narrative technique, and Ardner R. Cheshire Jr. and Mary S. Strine on *The Confessions of Nat Turner*. Originally published in 1975, *The Achievement of William Styron* was the first collection of critical essays on one of America's most distinguished contemporary fiction writers and it has become a standard work. Essays from the original edition which are included in this revised edition are those by the editors and by Louis D. Rubin Jr., John O. Lyons, Jan B. Gordon, Robert Phillips, and George Core.

Demon-Lovers and Their Victims in British Fiction Toni Reed, 2021-10-21 The hero of the story is a demonic lover, dark, handsome, mysterious, and dangerously seductive. The heroine, beautiful and innocent, willingly becomes his victim and is destroyed by him. This story of demon lover and victim, always charged with passion, has been told over and over from Greek mythology through contemporary fiction and films. *Demon Lovers and Their Victims in British Fiction* is the first historical and structural exploration of the demon lover motif with emphasis on major works of British fiction from the eighteenth, nineteenth, and twentieth centuries. It will interest those concerned with gender role conflicts in literature and with the mutual influence of oral and written texts of folklore and formal literature.

Committing the Future to Memory Sarah Clift, 2013-09-01 Whereas historical determinacy conceives the past as a complex and unstable network of causalities, this

book asks how history can be related to a more radical future To pose that question it does not reject determinacy outright but rather seeks to explore how it works In examining what it means to be determined by history it also asks what kind of openings there might be in our encounters with history for interruptions re readings and re writings Engaging texts spanning multiple genres and several centuries from John Locke to Maurice Blanchot from Hegel to Benjamin Clift looks at experiences of time that exceed the historical narration of experiences said to have occurred in time She focuses on the co existence of multiple temporalities and opens up the quintessentially modern notion of historical succession to other possibilities The alternatives she draws out include the mediations of language and narration temporal leaps oscillations and blockages and the role played by contingency in representation She argues that such alternatives compel us to reassess the ways we understand history and identity in a traumatic or indeed in a post traumatic age
