Corporate Level Strategy Olivier Furrer, 2016-04-13 The challenges faced by diversified corporations firms that operate in more than one industry or market have changed over the years In this new edition Olivier Furrer helps students of corporate strategy to consider the impact of critical changes in resources businesses and headquarters roles on the firm s ability for establishing and sustaining corporate advantage New to this edition are stimulating pedagogical features and additional material such as a new chapter on the theoretical foundations of multibusiness firms along with a host of new examples from across the world A companion website supplements the book providing PowerPoint slides a test bank of questions and lists of suggested case studies **Antitrust Law Sourcebook for the United States and Europe** William C. Holmes, Dawn E. Holmes, 2007 Banking Supervision and Criminal Investigation Giulia Lasagni, 2019-08-22 In the aftermath of the last financial crisis on both sides of the Atlantic banking supervisors were given new supervisory and enforcement powers which are often of a substantially punitive criminal nature In Europe in particular the establishment of the Single Supervisory Mechanism within the European Central Bank substantially increased centralised investigatory and sanctioning powers This major innovation together with the development of forms of real time monitoring of banking often digital records challenges traditional banking criminal investigations in their national based and analogue dimension The book offers a comprehensive account and perspective analysis of the interactions between the criminal and administrative nature of such new powers highlighting their punitive overall nature and their impact on fundamental rights Covering both the US and the EU regulatory frameworks it presents unprecedented trans systemic research between criminal law and procedure and between regulatory and administrative law at the international European and national level The book also includes a rich and detailed selection of case law from the US and the European supreme courts with a specific focus on CJEU and ECtHR decisions Mobile Payments, Consumer Policy, and the Law Nwanneka Ezechukwu, 2023-03-17 Mobile technology offers an innovative and cost effective channel for delivering a range of financial services including mobile payments In some jurisdictions mobile payments simply provide a convenient option for facilitating payment transactions In other jurisdictions mobile payments are viewed as potentially transformative because they present an opportunity to expand access to financial services However as with other innovations mobile payments raise consumer protection concerns and require robust regulatory mechanisms to address such concerns Against this backdrop the book adopts a typology of consumer policy tools which can be used to address the identified consumer concerns This typology guides the enquiry into the existing consumer protection frameworks applying to mobile payments in selected jurisdictions Canada Kenya and the United Kingdom The main objective of this endeavour is to identify best practices that national authorities seeking to leverage mobile payments and similar innovations can emulate This book will be of interest to policymakers regulators industry stakeholders students and scholars interested in the regulation of innovative financial services particularly from a

Yesim M. Atamer, Pascal Pichonnaz, 2019-11-19 This book explores various approaches around the world regarding price term control and particularly discusses the effectiveness of two major paths ex ante regulatory and ex post judicial intervention Price control and its limits are issues that affect all liberal market economies as well as more regulated markets For the past several years courts in many different countries have been confronted with the issue of whether and to what extent they should intervene regarding price related terms in standard form contracts especially in the area of consumer contracts Open price clauses flat remunerations price adjustment clauses clauses giving the seller supplier the right to ask for additional payments bundling or partitioning practices etc a variety of price related terms are used to manipulate customers choices often also by exploiting their behavioral biases. The result is an unfavorable contract that is later challenged in court However invalidating a given price term in standard forms e g of a banking or utilities contract only has an interpartes effect which means that in thousands if not millions of similar contracts the same clauses continue to be used Effective procedural rules are often lacking Therefore pricing patterns that serve to hide rather than to reveal the real cost of goods and services require special attention on the part of regulators. The aim of this book is to determine the various approaches in the world regarding price term control and particularly to discuss the efficiency of both paths ex ante regulatory and ex post judicial intervention Thanks to its broad comparative analysis this book offers a thorough overview of the methods employed in several countries It gathers twenty eight contributions from national rapporteurs and one supra national rapporteur EU to the 2018 IACL Congress held in Fukuoka These are supplemented by a general report presented at the same IACL Congress which includes a comparative analysis of the national and supranational reports The national contributors hail from around the globe including Africa 1 Asia 5 Europe 17 the European Union 1 and the Americas 5 Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events Country Trade Sourcebook Competition Policy and Intellectual Property in Today's Global Economy Robert D. Morisset, 2024-02-14 The Routledge Handbook of Heritage and the Law sheds light on the relationship between the two fields and analyses how the law shapes heritage and heritage practice in both expected and unexpected ways Including contributions from 41 authors working across a range of jurisdictions the volume analyses the law as a transnational phenomenon and uses international and comparative legal methodologies to distil lessons for broad application Demonstrating that the law is fundamentally a language of power and contestation the Handbook shows how this impacts our views of heritage It also shows that to understand the ways in which the law impacts key aspects of heritage practice it is important to tap into the possibilities of heritage as points of convergence of identity struggles over resources and the distribution of power Framing heritage as a driver for legal engagement rather than a passive regulatory object the book first reviews the legal fields or mechanisms that can shape action in the heritage field then questions how these enable authority and give power to those who seize heritage and finally envisions how the discussion between heritage and the law can lay new grounds in both those fields Lifting the mists that often render the law opaque in heritage studies the Handbook showcases the law as a medium through which the culture and the power of heritage are expressed and might be shared The Routledge Handbook of Heritage and the Law presents a view of the law that is aimed at those who wish to reflect on how law has changed or could change what heritage is and how it can support social cultural local or other development It will be of interest to scholars students policymakers and practitioners working in the areas of museum studies heritage studies and urban studies as well as in cultural intervention and planning Chapter 8 of this book is freely available as a downloadable Open Access PDF at http www taylorfrancis com under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Chapter 18 of this book is freely available as a downloadable Open Access PDF at http www taylorfrancis com under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Chapter 34 of this book is freely available as a downloadable Open Access PDF at http www taylorfrancis com under a Creative Commons CC BY 4 0 license The Routledge Handbook of Heritage and the Law Lucas Lixinski Lucie taylorfrancis com Networks in International Business George WI Hendrikse, Gérard Cliquet, Ilir Hajdini, Aveed Raha, Josef Windsperger, 2023-01-01 This contributed volume focuses on the management and governance of international business networks IBN Specifically the chapters refer to theoretical conceptual empirical and case study papers from all areas in economics and management of IBN These include cooperatives franchising retail chains strategic alliances public private partnerships and new network forms in the digital economy This book is ideal for researchers and strategists who are keen to improve their understanding of the latest developments in the field

Baku-Tbilisi-Kars Railroad: Future Opportunities and Prospects Mahir Humbatov, Evaldas Klimas, 2016-11-11 After centuries of neglect the land transport corridors connecting Asia and Europe are on the brink of a rebirth From practically nothing a revived network of these land corridors is likely to lead to a considerable share of the freight revenues being generated by the increased trade between Asia and Europe That is why there is fierce competition among the major players for control in shaping the Asia Europe railway transport corridors However there are also new and exciting possibilities for cooperation among the various players We will extensively examine and evaluate the transport corridors linking Asia and Europe The Baku Tbilisi Kars railway project will be assessed from the perspectives of the three countries involved Azerbaijan Georgia and Turkey It has been shown that the railroad will economically strengthen the region and better integrate the three host countries into international transport corridors The Baku Tbilisi Kars railroad will certainly play a key role in helping to revive the Silk Road connection thereby creating common interests and facilitating the transformation of the region The BTK transport corridor will not only stimulate the economies of the countries involved but help wean them their off oil dependence and restore their rightful place as major commercial hubs along the once legendary Silk Road The attraction of direct foreign investment and establishment of partnerships between the public and private sectors are key issues that will be explored in depth in this book By 2025 the region is expected to become a prosperous financial sector and transit area a comprehensive strategy to that end which incorporates the principles of sustainable growth is being formulated by the countries involved
