## **South African Military Forms For 2015:**

*Researching the Military* Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional, and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work, and the way their research impacts the academic and policy making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology, and security studies in general. **The World Factbook 2016-17** Government Publications Office, 2016-08-18 The World Factbook provides information on the history, people, government, economy, geography, communications, transportation, military, and transnational issues for 267 world entities. This annual edition also covers information about country profiles and country comparisons. It would make an excellent and useful resource for world geography, research papers, and international relations classes that may study the people, history, and communication patterns of other countries. *South Africa's Post-Apartheid Military* Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security, political, and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented, and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed, and the implications for force procurement, force preparation, force employment, and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention of military veterans, looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality, and mainstreaming the rise of military unions, and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence, security, and civil-military relations of countries around the
