Russell Phillips, 2017-08-22 When East and West survived on a knife edge between peace and war both sides were busy preparing themselves for military action But what exactly would NATO s troops have faced if the Cold War had suddenly turned hot Tanks and Combat Vehicles of the Warsaw Pact is a fascinating reference book looking at the wide variety of combat vehicles which were poised and ready for action throughout the long years of military stand off Led by the Soviet Union the nations which formed the Warsaw Pact were as innovative as they were prepared and these deadly war machines had the potential to change the course of world history forever Find out more about these combat vehicles from how they worked to what they would have been capable of if they had been used in military action against NATO Tanks and Combat Vehicles of the Warsaw Pact details more than 100 military vehicles from the 2P26 Baby Carriage a compact Soviet off road

armament force considerably even planning to cross western Europe in a massive armoured wave in the event of any conflict with NATO In this book Alexander Ldeke looks at all the important Soviet tanks that were built from 1917 up until the end of the Second World War *Russian Tanks of World War II* Tim Bean, Will Fowler, 2002 At the start of the campaign on the Eastern Front in the earliest days of Operation Barbarossa it was the German armour that swept all in front of it as the Wehrmacht drove eastwards in an unrelenting advance on Leningrad Moscow and Stalingrad The ill prepared and under resourced Russian forces were forced to retreat Gradually the balance of the war swung in favour of the Russian forces whose strength both in numbers and equipment proved decisive in the ultimate defeat of the German forces in the east Critical in the Soviet victory was its armour tanks such as the T 34 proving the equal if not better than some of the tanks available to the Germans This authoritative history of the Soviet forces before and during World War 2 reveals the development of their tactics in the early post revolutionary era right through to the ultimate victory in Berlin in May 1945 The dramatic struggle of the tank crews against the German advance is told through some 200 contemporary photographs many of which have never been seen before The photographs include images of tank training in the 1920s and 1930s on active service and many compelling pictures from some of the major tank battles of the day Over the past five years aided by the opening up of archives in Russia previously closed to western experts there has been a massive growth in interest in the events that occurred on the Eastern Front *Russian Tanks* is an important addition to the literature currently available exploring as it does the vitally important Soviet armour of the period

**Soviet Tank Company Tactics** Defense Intelligence Agency, 2019-07-25 *Soviet Tank Company Tactics* May 1976 We were surprised to find there were no clean copies in print so we decided to reconstitute the report as best we could Unfortunately the photos are not very good and the originals are nowhere to be found so we did not replace them Rather than change the document we decided to add a new document at the end that would show current 2019 Russian tanks and include what little information is available As far as tactics go not really sure how the new tanks such as the T 14 will cause changes to Russian tank tactics but some of the information is still valid today such as the use of snorkel night vision and the effects of poor weather conditions You will note that we added some additional information regarding Russian New Generation Warfare RNGW 4th Generation Warfare Hybrid War and new Russian weapons at the end including 1K17 Szhatie 1 17 Russian Stiletto Laser Tank Combat Laser System Peresvet Russian Laser Cannon T 14 Armata Main Battle Tank T 15 Heavy Infantry Combat Vehicle Kurganets 25 Light Tracked Armored Vehicle 2S35 Koalitsiya SV 152 mm Self Propelled Howitzer VPK 7829 Bumerang Modular Infantry Wheeled Fighting Vehicle Why buy a book you can download for free We print the paperback book so you don't have to First you gotta find a good clean legible copy and make sure it's the latest version not always easy Some documents found on the web are missing some pages or the image quality is so poor they are difficult to read If you find a good copy you could print it using a network printer you share with 100 other people typically it's either out of paper or toner If it's just a 10 page

document no problem but if it s 250 pages you will need to punch 3 holes in all those pages and put it in a 3 ring binder Takes at least an hour It s much more cost effective to just order the bound paperback from Amazon com This book includes original commentary which is copyright material Note that government documents are in the public domain We print these paperbacks as a service so you don t have to The books are compact tightly bound paperback full size 8 1 2 by 11 inches with large text and glossy covers 4th Watch Publishing Co is a HUBZONE SDVOSB <https://usgovpub.com> **Soviet Tank Units 1939-45** David Porter,2020-04-14 Organised chronologically and packed with 250 profile artworks Soviet Tank Units 1939 45 offers an highly illustrated guide to the main armoured fighting vehicles used by the Red Army during World War II
