Justiciability of Human Rights Law in Domestic Jurisdictions Alice Diver, Jacinta Miller, 2015-12-15 This collection of 16 essays by 19 contributors calls into question the notion of domestic justiciability across a wide range of human rights

issues such as health human dignity criminal justice property and transitional democracy The authors offer critical analyses of a number of rights frameworks focusing in considerable detail upon specific countries e g Libya Colombia Ireland the United Kingdom Northern Ireland South Africa Nigeria Zimbabwe Kenya India and regions e g Europe Africa to highlight the various challenges which continue to vex human rights advocates and scholars In doing so they pinpoint some of the major tensions that still exist within developing and developed jurisdictions via a myriad range of perspectives The essays collectively present a diverse assortment of themes unified by a single golden thread that of the domestic interpretations given to human rights protections They raise questions as to how such rights might be made substantive at the level of domestic implementation and query the extent to which these rights can or even should be enforced by the courts The potential strains in the relationship between human rights and the rule of law is further called into question by another central theme that of human dignity A fundamental dilemma arises in respect of the extent to which a right to dignity can best be promoted protected or monitored by domestic decision makers Similar issues are apparent within the context of the protection of those human rights which increasingly tend to engage social political or economic considerations and interests Whilst these arguments are often framed principally in terms of rights the collective message that emerges from this book is that such rights may often be in fact essentially non justiciable Readers of this text will perhaps feel compelled to reflect carefully and fully upon what it tells us about human rights law generally and the extent to which such rights may be truly amenable to adjudication by the courts
