## Reasons and Background of the War

The Spanish American War started in 1898, and the reason of this conflict was the liberation of Cuba. The war started after Spain's rejection of the American request for the resolution of the Cuban struggle for independence. The expansionist sentiment within the US government, and the imperialistic moods of American political tradition motivated the government to work out the plan for separating Cuba from Spain (The annexation plan also included Philippines, Puerto Rico, and Guam).

The starting point of the conflict was the revolution in Cuba. After that events the US government sent in the warship USS Maine, which revealed the immense political interest of the United States in that region. The American tabloids accused Spain of the oppression in the Spanish colonies.

Originally, the Spanish-American War was started for a great deal of reasons. It is emphasized that the most important reasons are treatment of the Cuban people by the Spanish government, yellow journalism, business interests and the fact that the United States government wished to flex its muscles as a world power (Post, 1999). The starting point of the conflict was the sinking of US battleship Maine in Havana harbor February 15, 1898. The US claimed that Spanish government is guilty for this sinking, however, it has not been proven. The United States were not prepared for this war, and according to logic the war should be lost by US troops. There was shortage in everything except volunteers, as the agitation, held by yellow journalism, was immense.

While congress was convening and accepting the resolutions which supported Cuban independence, Senator Henry M. Teller of Colorado offered the amendment which was aimed at ensuring that the United States is not wishing to set up the permanent control over Cuba after the cessation of hostilities from Spain. The Amendment was accepted, however, the resolution required immediate Spanish withdrawal, and it included the point, that the US president is capable to use the military forces in the volumes, he considers sufficient to help Cuba achieve independence from Spain. President McKinley signed this resolution, and ultimatum was sent by diplomatic

Heirs to a storied past and glamorized as modern day knights the Marine Corps the elite fighting force in America s military in fact has not always been so highly regarded As Jack Shulimson shows only a century ago the Corps identity and existence were much in question Although the Marines were formally established by Congress in 1798 and subsequently distinguished themselves fighting on the Barbary Coast their essential mission and identity remained unclear throughout most of the nineteenth century But amid the crosscurrents of industrialization technological change professionalization and reform that emerged in Gilded Age America the Corps underwent a gradual transformation that ultimately secured its significant and enduring military role In this enlightening study Shulimson argues that the Marine Corps officers inextricable ties to the Navy both hampered and aided their attempt to define their own special jurisdiction and professional identity Often treated like a poor relation the Marine officers frequently found themselves in direct competition with their counterparts in the Navy and at times the object of the latter s scorn Shulimson reveals the processes politics and personalities that converged to create these tense and sometimes embattled relations but he goes on to show how Marine officers with the Navy s blessing eventually transcended their second class role
