Teaching Palahniuk: The Treasures of Transgression in the Age of Trump and Beyond Christopher Burlingame, 2022-05-10 While much has been written about Chuck Palahniuk and his body of work next

to nothing has been written about when where and how it is necessary to teach Palahniuk This collection will reveal that teaching Palahniuk's work and the discursive dynamic of the classroom interactions create new opportunities for scholarship by both the faculty member and his or her students Despite early critical success with *Fight Club* *Invisible Monsters* and *Choke* Palahniuk's novels are increasingly dismissed for the very transgressive content that makes them essential pedagogical tools in the Age of Trump where truth isn't truth and tribalism is stoked with claims of fake news This collection aims to broaden the scholarship by examining under represented and unrepresented works from his oeuvre and situating them in the context of their pedagogical implications In both form and content the transgressive nature of Palahniuk's work demands critical thought and reflection capacities that are necessary for the preservation of a democratic society Contributors take various approaches to address what students can learn about writing literature and society by reading and analyzing Palahniuk's texts The collection will discuss the value of teaching Palahniuk innovations and various disciplinary contexts for teaching his works and reflections on some of those pedagogical opportunities Through its multi faceted discussion of Palahniuk and pedagogy this collection will legitimize efforts to bring his work onto syllabi and into the classroom where it can enhance student engagement create new avenues for inter disciplinary scholarship and re invigorate an expansion of the canon It will also provide diverse frameworks for incorporating and interpreting Palahniuk's writing across disciplines Finally the collection will offer post mortems from faculty members who have found the guts to teach Palahniuk and will offer insight into what students have gained and stand to gain from a more intensive Palahniuk pedagogy

Travel Writing, Form, and Empire Julia Kuehn, Paul Smethurst, 2008-11-19 This collection of essays is an important contribution to travel writing studies looking beyond the explicitly political questions of postcolonial and gender discourses it considers the form poetics institutions and reception of travel writing in the history of empire and its aftermath Starting from the premise that travel writing studies has received much of its impetus and theoretical input from the sometimes overgeneralized precepts of postcolonial studies and gender studies this collection aims to explore more widely and more locally the expression of imperialist discourse in travel writing and also to locate within contemporary travel writing attempts to evade or re engage with the power politics of such discourse There is a double focus then to explore further postcolonial theory in European travel writing Anglophone

Francophone and Hispanic and to trace the emergence of postcolonial forms of travel writing The thread that draws the two halves of the collection together is an interest in form and relations between form and travel Congressional Record United States.
