Communication and Catastrophic Events H. Dan O'Hair, Mary John O'Hair, 2022-12-08. An authoritative compendium of new research findings and case studies in the application of communication theory during catastrophic events. *Communicating Science in Times of Crisis: Communication and Catastrophic Events* addresses the practical application and research implications of communication theory in the context of man-made and natural catastrophes. Bringing together contributions by leading experts in crisis management and strategic communication, this timely collection of resources links scientific issues with public policy while discussing the challenges and opportunities for using communication to manage extreme events in the evolving media landscape of the 21st century. In this second volume of the Wiley Blackwell *Communicating Science in Times of Crises* series, 15 substantial chapters explore a varied range of catastrophic conditions such as mass violence incidents, disease outbreaks, catastrophic mudslides, cascading and simultaneous disasters, extreme weather events, diffusion of misinformation during crises, students traveling internationally during a global health crisis, and more. Each chapter focuses on a particular issue or concern, revealing the difficult choices that confront academics and practitioners across communication disciplines and presenting original frameworks and models alongside ongoing research programs. Discusses approaches for balancing scientific findings with social and cultural issues. Highlights the ability of legacy and digital media to facilitate science in mitigating the effects

of adverse events Examines the ethical repercussions of communication during unfolding and unpredictable events Addresses the use of social media communication during a crisis and navigating an increasingly media savvy society with multiple levels of science literacy Covers key theoretical and practical aspects of the associated fields of risk management and crisis management Available as a standalone book or as part of a two volume set Communicating Science in Times of Crisis Communication and Catastrophic Events is essential reading for scholars researchers practitioners and advanced students in the fields of crisis communication risk and emergency management disaster studies policy management social media communication and healthcare communication

Edwards, III, 2012-03-25 How Obama overestimated the power of rhetoric and persuasion during his presidency When Barack Obama became president many Americans embraced him as a transformational leader who would fundamentally change the politics and policy of the country Yet two years into his administration the public resisted his calls for support and Congress was

deadlocked over many of his major policy proposals How could this capable new president have difficulty attaining his goals Did he lack tactical skills In *Overreach* respected presidential scholar George Edwards argues that the problem was strategic not tactical He finds that in President Obama's first two years in office Obama governed on the premise that he could create opportunities for change by persuading the public and some congressional Republicans to support his major initiatives As a result he proposed a large expensive and polarizing agenda in the middle of a severe economic crisis The president's proposals alienated many Americans and led to a severe electoral defeat for the Democrats in the 2010 midterm elections undermining his ability to govern in the remainder of his term Edwards shows that the president's frustrations were predictable and the inevitable result of misunderstanding the nature of presidential power The author demonstrates that the essence of successful presidential leadership is recognizing and exploiting existing opportunities not in creating them through persuasion When Obama succeeded in passing important policies it was by mobilizing Democrats who were already predisposed to back him Thus to avoid overreaching presidents should be alert to the limitations of their power to persuade and rigorously assess the possibilities for obtaining public and congressional support in their environments
