Wicked Problems Workable Solutions Lessons From A Public Life:

Wicked Problems, Workable Solutions Daniel Yankelovich, 2014-12-18 After five decades of studying how Americans respond to public issues Daniel Yankelovich presents a strategy to nurture the greater public wisdom necessary for modern society to confront its most wicked problems Having been an advisor to major corporations and influential media business and government organizations Yankelovich is a leading public opinion expert who has had a long career studying questioning and reporting on national issues trends and opinions Stagnant incomes blocked social mobility political polarization dysfunctional educational criminal and health care systems and global instability plague the welfare of not only the United States but also the entire world By instituting a few powerful innovations we can revolutionize today's inattentive public into a thoughtful action oriented populous Yankelovich shares the philosophical foundation of his successful career and revisits some of his breakthrough experiences drawing insightful conclusions applicable to our current condition Full of stories of how destinies can change when people abandon ingrained unproductive thinking habits *Wicked Problems Workable Solutions* lays out a pragmatic design to reboot democracy and lead our society forward into a more promising future *Catalytic Governance* Patricia Meredith, Steven A. Rosell, Ged R. Davis, 2016-01-01 *Catalytic Governance* presents a new governance model for managing transformational change based on engagement dialogue and collaborative decision making *Exploring Wicked Problems* Joseph Bentley PhD, Michael Toth PhD, 2020-04-21 Former Secretary of State George Shultz once drew a distinction between problems you can solve and problems you can only work at These two types of problems have names They are tame or wicked Many people believe that their problems are wicked yet few seem to understand what should be done with them Wicked problems are messy confusing unstable ill structured and ambiguous This book explores the timely issue of wicked problems what they are and why they are important The authors open the door to a greater understanding of wicked problems and an appreciation for their complexity sharing insights and recommendations on how to tackle them to make positive and productive changes in relationships at home and at work Making one's way successfully through the mess of obstacles and impediments that wicked problems present puts maximum pressure on our capabilities and stretches our tolerance for confusion conflict controversy and chaos Get guidance on grappling with the wicked problems in your life by increasing your knowledge about what they are and why they are so important to keep working at even if they can't be completely resolved *Society as an Interaction Space* Hanna Lehtimäki, Petri Uusikylä, Anssi Smedlund, 2020-02-29 As digitalization and social media are increasingly blurring the boundaries between traditional societal political and economic institutions this book provides a cross disciplinary examination of value co creation From various standpoints it examines how institutions contribute to service ecosystems and how digitalization is transforming value co creation in these ecosystems Further the book shares new perspectives on relational dynamics among government companies and citizens These insights fill the gaps between service science and political science by integrating institutional logics into the concept of

value co creation The book subsequently examines society as an interaction space Topics discussed include the new logic and transformation mechanisms of economic activities citizen participation governance and policy making in the face of technological innovations market based reforms and the risk of disconnect between citizens and policy making Here the focus is on value co creation in complex adaptive systems where institutions individuals and businesses negotiate value and interests in networked relations In closing the book presents a range of empirical case studies on value co creation which provide examples of active networked citizenship innovative governance and policy making democratic leadership and trust building dialogue among institutions The studies address the context of Nordic countries recognized as world leading democracies Pursuing a systems approach the book articulates a social reality composed of interacting and interconnected elements that cannot be captured with only micro or macro levels of analysis Service ecosystems are considered as configurations of people and technologies embedded in institutionalized rules cultural meanings and practices offering valuable insights into the service centered view of markets and society Given the breadth and depth of its coverage the book offers a valuable resource for all students and scholars interested in understanding and envisioning the future democratic landscape

Community Empowerment, Sustainable Cities, and Transformative Economies Taha Chaiechi, Jacob Wood, 2022-01-12 This edited volume presents the conference papers from the 1st International Conference on Business Economics Management and Sustainability BEMAS organized by the Centre for International Trade and Business in Asia CITBA at James Cook University This book argues that the orthodox methods of external risks climate change adaptation plans and sustainable economic growth in cities are no longer adequate These methods so far have not only ignored the ongoing structural changes associated with economic development but also failed to account for evolving industries composition and the emergence of new comparative advantages and skills Specifically this book looks at the vulnerable communities and exposed areas particularly in urban areas that tend to experience higher susceptibility to external risks such as climate change natural disasters and public health emergencies have been largely ignored in incremental adaptation plans Vulnerable communities and areas not only require different adaptive responses to climate risk but also possess unlocked adaptive capacity that can motivate different patterns of sustainable development to achieve the goals of the 2030 Agenda It is essential therefore to view transformative growth and fundamental reorientation of economic resources as integral parts of the solution Social disorganisation and vulnerability are other undesired outcomes of the unpredictable and widespread external economic shocks This is due to a sudden and tough competition between members of society to acquire precious resources most of which may be depleted during unprecedented events such as natural disasters or pandemics resulting in an even more chaotic and disorganised conditions
