Angie Turner is back in her hometown of River Vista, Idaho, ready to open her own farm-to-table restaurant. Together with her friend and business partner Felicia, Angie is lining up vendors from local farmers' markets to Old Man Moss's goat dairy farm. Not everyone in the Boise suburb is keen on having a fancy new eatery in town. But the cantankerous Moss takes a shine to Angie, as does his kid goat, Precious. When Angie hears the shocking news that Moss has been killed, she jumps in to mind the man's livestock and help solve his murder. Now with her grand opening just days away, Angie has grave reservations about her new neighbors. But one thing's for sure: Angie's not about to let some killer get her goat. Children with Hearing Loss Elizabeth B. Cole, Carol Flexer, 2019-07-22 The fourth edition of *Children With Hearing Loss: Developing Listening and Talking Birth to Six* is a dynamic compilation of important information for the facilitation of spoken language for infants and young children with hearing loss. This text covers current and up-to-date information about auditory brain development, listening scenarios, auditory technologies, spoken language development, and intervention for young children with hearing loss whose parents have chosen to have them learn to listen and talk. The book is divided into two parts. Part I, *Audiological and Technological Foundations of Auditory Brain Development*, consists of the first five chapters that lay the foundation for brain-based listening and talking. These chapters include neurological development and discussions of ear anatomy and physiology, pathologies that cause hearing loss, audiologic testing of infants and children, and the latest in amplification technologies. Part II, *Developmental Family Focused Instruction for Listening and Spoken Language Enrichment*, includes the second five chapters on intervention, listening, talking, and communicating through the utilization of a developmental and preventative model that focuses on enriching the child's auditory brain centers. New to the Fourth Edition: All technology information has been updated as has information about neurophysiology. The reference list is exhaustive with the addition of the newest studies while maintaining seminal works about neurophysiology, technology, and listening and spoken language development.
