Michael Zenn,2012-11-27 Newly revised and updated this electrifying guide has been praised by doctors health experts and readers who have taken their own self health challenge Describing himself as an ordinary guy who discovered an extraordinary secret which he now feels compelled to share with everyone J Michael Zenn completely changed his own life when he began a quest to get healthy With some simple but profound improvements to his diet and everyday habits Zenn lost fifty pounds and six inches off his waist and within just a few months felt and looked younger than he had in two decades So he quit his job and spent a year reading 200 books and interviewing experts in order to write about the powerful message he calls the self health revolution In this inspiring book Zenn reveals The hidden ingredient in our food that makes us fat The Tsunami of Diabetes obesity diabetes that threatens our health our health care system and our economy Three simple things you can do to get fit and stay thin A forgotten remedy that can get rid of your aches and pains One thing you can do now to help extend your life The little known reason most people feel tired and run down How unhappiness and stress can take years off your life The Number 3 killer that nobody wants to talk about A cure

that your doctor may not know about or can't tell you. Now you can join the revolution of self health throughout America. Take the 10 day challenge. You'll lose weight, keep it off, feel better, and have more energy than you thought possible.

**Parallelwelten** Martin Recke, 2020-02-21 Parallelwelten parallel worlds are worlds invisible to anyone not part of them. More and more, our reality is defined through digital products which afford us infinitely more freedom than in the analogue past. But increased choice has also heightened our susceptibility to manipulation. Filter bubbles, fake news, and alternative facts are just data that can be easily and cheaply manipulated. We now live in multiple realities that are increasingly losing touch with each other. Reality has been turned into bits. Or is it the other way around? The digital world increasingly defines controls and governs the analogue world. Tech companies buy and sell the raw data of human experience. Our human behaviour is turned into data which is processed into information and then manipulated and fed back into our information diet to control our behaviour. Data is the raw material and information, not content, is king. Information even defines reality. This book investigates these parallel worlds from different angles: technological, corporate, scientific, cultural, economic, and political. It doesn't view tech as an end in itself and something the rest of the world simply must adapt to. Instead, it asks how tech can solve real problems and make the world not a worse place but a better one. *Crazy Sexy Kitchen* Kris Carr, 2014-12-09 Start eating the crazy sexy way: a nutrient dense plant happy approach to eating and living that harmonizes your beautiful body at the cellular level.
