

### Why Do I Want to Attend College?

My name is Brazjae Brown. I am a senior at Northumberland High School. I am also a dual-enrolled student, earning my associate's degree at Rappahannock Community College. After high school, my aspirations are composed of attending a four-year college or university to obtain a bachelor's degree. My occupational yearnings consist of one day becoming a successful news anchor or working as a journalist for an entertainment industry such as E News or BET. I am very aware that the need of a college degree in order to obtain a career is certainly increasing. I know that it is possibly that all of my goals could remain dreams without attending college. Consequently, I am exceptionally committed to working remarkably hard in school and remaining focused.

Since I have been old enough to comprehend the concept of going to college, I have been unquestionably sure that I wanted to seek an higher education following high school. I knew that I needed to be tenacious and persistent. I have always been privileged to have the altruistic support and solace of my parents and I aspire to make them proud. I feel as though I would not be as far along in my educational career as I am if it were not for them. My parents have sustainable paying jobs, but I hate the fact of them having to carry all of my schooling expenses on their own. As a result, I am always seeking for scholarship opportunities that could possibly be a benefactor in achieving my college education.

I want to go to college because I have always been told education is the key to success. Being an African American, we have not always been able to achieve being educated. Our ancestors fought for us to be able to attend school in the way that we do now so I feel it is only right to take advantage of the opportunity. My father told me about one of his coworkers who had been employed at his location for 10+ years although she did not have a college degree. There was an opening in the position above hers, that she was qualified for. However, the position was given to a newer employee because the newer employee had a degree under her belt. As the workforce progresses, I know it will only become harder to obtain a career with only a high school diploma.

It is almost a necessity to have a college degree now to obtain a well paying job. Research has shown that those with a high school degree or a GED make 40% less per year than graduates with a bachelor's degree. I take a lot of interest in learning, and I am very excited to potentially be able to further my education. I am from a very small town so branching out to new beginnings has always been a dream of mine. My mother and father were the first generations out of both of their families to attend college. Becoming the second generation would definitely be an honor. It has always been instilled in me that knowledge is power and therefore, the mor
