William John Bennett, 1995 A collection of stories and poems presented to teach virtues including compassion courage honesty friendship and faith **What I Would Have Said...** Thomas R. Wallin, 2013-05 This book is a series of interpretive essays and limericks describing wise sayings from such authors as Jackson Brown Stephen Covey Edwin and Sally Kiester William Bennett John Rosemond Steven Scott Colin Powell President Garfield and even Salada Tea Tag Lines *The Book of Virtues: 30th Anniversary Edition* William J. Bennett, Elayne Glover Bennett, 2022-11-29 A collection of hundreds of stories that will help children understand and develop character and help adults teach it to them From the Bible to American history from Greek mythology to English poetry from fairy tales to modern fiction these stories are a rich mine of moral literacy This revised anniversary edition includes new stories of those who have shaped recent history such as Mother Teresa Colin Powell and Rick Rescorla **The Moral of the Story** John H. Lockwood, 1999 The problem this project attempts to solve is to

develop a workable moral education in light of the clash between religious forms of moral education and U S Supreme Court decisions concerning them The concept of story and storytelling has been suggested as a unifying focus for disparate prescriptions for moral education Several recent approaches to moral storytelling have been proposed The approaches of William Bennett Nel Noddings and Herbert Kohl are among those which have attempted to combine moral education and storytelling within the last decade Bennett is identified with other theorists whose primary concern is the moral content of a story Noddings is identified as a process theorist whose primary concern is the process of moral storytelling not the content

Kohl is identified as a reflection theorist whose approach challenges tradition in the hope of creating a more moral society. Each one of these three approaches attempts to provide a comprehensive program of moral education but they fall short of that goal. The purpose of this project then is to construct a storytelling moral education program that improves upon earlier approaches. Using the three levels of moral thinking posited by R M Hare, a three level approach to moral storytelling is proposed. The intuitive, critical and meta ethical levels of moral thinking that Hare refers to are used to frame a new three level approach to moral storytelling. The three level approach combines content, process and reflection into a unified prescription for moral education. Thus a more comprehensive plan for moral education through storytelling is developed, one that respects traditional forms of moral education while remaining within the parameters set by the U S Supreme Court.

Ziolkowski, 2018-10-31. This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. In this volume Jan Ziolkowski follows the juggler of Notre Dame as he cavorts through new media including radio, television and film, becoming closely associated with Christmas and embedded in children's literature. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies and reception studies. **Seeds of Virtue and Knowledge** Maryanne Cline Horowitz, 1998. In

this wide ranging and thought provoking study Maryanne Cline Horowitz explores the image and idea of the human mind as a garden under the proper educational cultivation the mind may nourish seeds of virtue and knowledge into the full flowering of human wisdom This copiously illustrated investigation begins by examining the intellectual world of the Stoics who originated the phrases seeds of virtue and seeds of knowledge Tracing the interrelated history of the Stoic cluster of epistemological images for natural law within humanity reason common notions sparks and seeds Horowitz presents the distinctive versions within the competing movements of Hellenistic Judaism and early Christianity Augustinian and Thomist theologies Christian mysticism and Kabbalah and Erasmian Catholicism and the Lutheran Reformation She demonstrates how the Ciceronian and Senecan analogies between horticulture and culture basic to Italian Renaissance humanists artists and neo Platonists influence the emergence of emblems and essays among participants in the Northern Renaissance neo Stoic movement The Stoic metaphor is still visible today in ecumenical movements that use vegetative language to encourage the growth of shared values and to promote civic virtues organizations disseminate information on nipping bad habits in the bud and on turning a new leaf The author s evidence of illustrated pages from medieval Renaissance and Enlightenment texts will stimulate contemporary readers to evaluate her discovery of the premodern scientific paradigm that the mind develops like a plant

When Texas Prison Scams Religion Michael G. Maness,2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ s executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been

lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars

Tending the Heart of Virtue Vigen Guroian,2002-02-07 As the popularity of William Bennett s Book of Virtues attests parents are turning more and more to children s literature to help instill values in their kids Now in this elegantly written and passionate book Vigen Guroian provides the perfect complement to books such as Bennett s offering parents and teachers a much needed roadmap to some of our finest children s stories Guroian illuminates the complex ways in which fairy tales and fantasies educate the moral imagination from earliest childhood Examining a wide range of stories from Pinocchio and The Little Mermaid to Charlotte s Web The Velveteen Rabbit The Wind in the Willows and the Chronicles of Narnia he argues that these tales capture the meaning of morality through vivid depictions of the struggle between good and evil in which characters must make difficult choices between right and wrong or heroes and villains contest the very fate of imaginary worlds Character and the virtues are depicted compellingly in these stories the virtues glimmer as if in a looking glass and wickedness and deception are unmasked of their pretensions to goodness and truth We are made to face the unvarnished truth about ourselves and what kind of people we want to be Throughout Guroian highlights the classical moral virtues such as courage goodness and honesty especially as they are understood in traditional Christianity At the same time he so persuasively evokes the enduring charm of these familiar works that many readers will be inspired to reread their favorites and explore those they may have missed

Conscience and Other Virtues Douglas C. Langston,2001 Conscience once a core concept for ethics has mostly disappeared from modern moral theory In this book Douglas Langston traces its intellectual history to account for its neglect while arguing for its still vital importance if correctly understood In medieval times Langston shows in Part I the notions of conscientia and synderesis from which our contemporary concept of conscience derives were closely connected to Greek ideas about the virtues and practical reason although in Christianized form As modified by Luther Butler and Kant however conscience later came to be regarded as a faculty like will and intellect and when faculty psychology fell into disrepute so did the role of conscience in moral philosophy A view of mature conscience that sees it as relational with cognitive emotional and conative dimensions can survive the criticisms of conscience as faculty In Part II through discussions of Freud Ryle and other modern thinkers Langston proceeds to reconstruct conscience as a viable philosophical concept Finally in Part III this better grounded concept is connected with the modern revival of virtue ethics and Langston shows how crucial conscience is to a theory of virtue because it is fundamental to the training of any morally good person

Return of the "L" Word Douglas S. Massey,2009-01-10 Somewhere in the 1970s liberals in the United States lost their way After successes like the New Deal they became arrogant So argues Douglas Massey in Return of the L Word Faced with the difficult politics of race and class liberals used the heavy hand of government to impose policies on a resentful public Conservatives capitalized on this with a staunch ideology of free markets limited government and conservative social values

The time is ripe for a liberal realignment declares Massey but what has been lacking is a consistent liberal ideology that explains to voters in simple terms government's vital role in producing a healthier more financially equitable less divided society This book supplies that ideology Massey begins his powerful manifesto by laying out the liberals mistakes over the past twenty years Drawing on insights from the expanding field of economic sociology he then sets forth a clear set of liberal principles to explain how markets work in society principles he applies to articulate salable liberal policies After outlining a new liberal political philosophy Massey traces liberalism's opposition and says plainly liberals should have no illusions about the competition's resolve and skill He closes with a practical approach to liberal coalition building in America The political economy conservatives have constructed in recent decades has benefited 20 percent of the people Liberal success requires a return to material rather than symbolic politics showing most Americans why it is in their economic as well as moral interest to support the liberal cause

America's Teachers Joseph W. Newman, 2006 Through clear accessible writing and the strongest research base and documentation on the market this edition offers a positive teacher centered view of the profession America's Teachers An Introduction to Education Fifth Edition accurately reflects how teachers themselves feel about their work With critical and informative material on teaching as an occupation the foundations of education and emerging issues affecting today's classrooms this textbook provides prospective teachers with a realistic look at teaching This new edition provides a stronger emphasis on cultural diversity in every chapter particularly in Chapter 8 and thorough integration of No Child Left Behind throughout the text

Moral Philosophy Through the Ages James Fieser, 2000 Takes a middle ground between the topical and historical approaches to Western ethics This book explains the historical development of the topic under consideration and most chapters focus on a specific famous philosopher who championed a particular tradition such as Aristotle Locke or Kant and the chapters are chronologically ordered

Private Needs, Public Selves John K. Roth, 1997 Polls through the 90s show that many Americans believe the nation is in a period of spiritual decline yet public religious display and discussion often is deemed politically incorrect Philosopher John K Roth feels that more outward sharing of religious beliefs thoughts and ideas would bridge the gap between our private needs and our public selves and would give Americans of differing faiths a common identity

Competition, Trust, and Cooperation Yuichi Shionoya, Kiichiro Yagi, 2012-12-06 It was at the fifth SEEP Conference on Economic Ethics and philosophy in autumn 1997 that the organizational work of the seventh conference in 1999 was entrusted to the editors of this volume Prof Peter Koslowski series editor of The Studies in Economic Ethics and Philosophy SEEP expressed the hope that the SEEP Conference be held in the Far East for the first time would bring a new comparative aspect to economic ethics and philosophy Further the agenda of economic ethics seemed to increase its significance also in Japan and other Asian countries especially due to the spread of corruption in the government and business under the financial crisis that attacked these nations in the late 1990s Though we chose Competition Trust and Cooperation as the general theme of the conference this should include

the collusion distrust and corruption as the opposite side of the medal The conference was held on March 10 12 1999 at the Kansai Seminar House of the Nippon Christian Academy Kyoto Japan Fourteen papers were submitted to the conference In addition to twelve papers that are printed in this volume Prof Ruisheng Wang Capital Normal University Beijing read his paper on ethical problems in the context of Asian financial crisis and Prof Agnar Sandmo Norwegian School of Economics and Business Administration did the same by his paper on societal aspect of the competition promotion policy
