The Competency Restoration Handbook Laura M. Grossi, 2025-09-12 This handbook is a collection of foundational materials for competency restoration providers who work with adult pretrial defendants in the U S We first describe the legal context related to adjudicative competence and provide an overview of foundational competency restoration practices We expand upon these foundational resources by explaining how various clinical interventions can be adapted to help restore individuals to competency We attempt to explain and model a holistic multidisciplinary interdisciplinary and culturally conscious approach to restoration Covering empirically informed theoretical and creative approaches that can be individualized for

each specific defendant we aim to encourage and facilitate best practices in competency restoration. The reader is encouraged to adopt the interventions illustrated within the scope of their professional competencies to address defendant specific barriers to adjudicative competence. Unfortunately, there is still very little outcome research on the utility of incorporating these and other clinical approaches in competency restoration. Competency restoration providers are encouraged to consider adapting other treatment modalities not mentioned in this handbook, i.e., particularly those which are empirically supported or newly developed for clinical use to facilitate competency restoration. Provided by publisher The Expanded Dialectical Behavior Therapy Skills Training Manual Lane Pederson, Cortney Sidwell Pederson, 2012. In addition to fresh updates on the classic modules of Mindfulness, Distress Tolerance, Emotion Regulation, and Interpersonal Effectiveness, this manual expands skills training into the areas of Dialectics, Shifting Thoughts, Building Routines, Problem Solving, and Boundaries. Straight forward explanations and useful worksheets make the skills accessible to clients. Practical guidance on clinical policies with program forms help therapists create safe and structured treatment environments. Easy to read and highly practical, this definitive manual is an invaluable resource for clients and therapists across theoretical orientations.

Borderline Personality Disorder Perry D Hoffman, Penny Steiner-Grossman, 2012-11-12. Explore and understand new approaches in Borderline therapy. Borderline Personality Disorder (BPD) lags far behind other disorders such as schizophrenia in terms of research and treatment interventions. Debates about diagnosis, etiology, neurobiology, genetics, medication, and treatment still persist. Borderline Personality Disorder brings together over two dozen of the field's leading experts in one enlightening text. The book also offers mental health providers a view of BPD from the perspectives of sufferers as well as family members to foster an understanding of the experiences of relatives who are often devastated by their loved ones' struggles with this common disorder. Although there has been an increasing interest in BPD in terms of research, funding, treatment advancement, and acknowledgment of family perspective over the last decade, the fact remains that the disorder is still highly stigmatized. Borderline Personality Disorder provides social workers and other mental health clinicians with practical access to the knowledge necessary for effective treatment in a single volume of the most current research, information, and management considerations. This important collection explores the latest methods and approaches to treating BPD patients and supporting their families. This useful text also features handy worksheets and numerous tables that present pertinent information clearly. Chapters in Borderline Personality Disorder include an overview of Borderline Personality Disorder, confronting myths and stereotypes about BPD, biological underpinnings of BPD, BPD and the need for community, a social worker's perspective on an evidence-based approach to managing suicidal behavior in BPD patients, Dialectical Behavior Therapy, supportive psychotherapy for borderline patients, Systems Training for Emotional Predictability and Problem Solving (STEPPS), Mentalization-based Treatment, fostering validating responses in families, Family Connections, an education and skills training program for family member wellbeing, and much more.
