**The Manual of Darkness** Enrique de Heriz, 2011-07-14 The world's best magician is going blind, but is there a story in his past that can save him? Victor Losa has spent his life studying magic. His mentor Mario Galvan taught him not only the practical aspects of the art but also its history and the lives of famous Victorian magicians such as Hoffman, Maskelyne, and Cooke, and the most enigmatic historical figure of all, Peter Grosse, a pickpocket who decided to challenge the best magicians of the day. But suddenly, things change for Victor Losa just as he is proclaimed the world's best magician. A light appears in his eye, but this is no magic trick; he is diagnosed with a rare degenerative condition of the optical nerve. In short, he is rapidly going blind. As he loses his sight, Victor finds that there are new ways to conjure the world through stories of the past, present, and future. And finally, he learns the secret behind his mentor's teachings.

*User Innovation Barriers' Impact on User-Developed Products* Thorsten Pieper, 2019-03-01 Thorsten Pieper explores the impact of innovation barriers along the user innovation process, in particular whether technological, social, legal, and ownership barriers change the properties of user-developed products. This study roots from the open innovation research field and reveals insights from innovating users in collaborative workspaces. The results prove a hierarchical allocation of innovation barriers regarding their influence on the end product and moderating influences of user innovators' personal characteristics. The author discusses these insights and provides practical recommendations for more efficient promotion of user innovations and successful integration in corporate co-creation projects.
