### CHAPTER 8 - SHIP

Once Willow and I reached the fuel container, an infected creature approached us from behind. It must've accidentally hit the back button on the controller, because we found ourselves locked in. I kept telling Willow that it would be best for us to start getting along, as nothing good could come of us keeping our hostilities. None of us are innocent, and it's time for us to accept that. Shortly after, our friends found us inside the fuel container. They told us that they got worried about us, so they began to search for us. Our mission was quickly interrupted by sounds of explosion. We quickly met with Captain Bludny outside, and she informed us that we arrived at Overport. It could just be coincidence in the distance, accompanied by explosive lights. The fuel we collected should be just enough to give the Medora a push to the docks there. I gulped and looked around, seeing the worried faces on everyone else. We had no idea what we were in for.

An old photo of the Medora I found.
