Symbols in Action Ian Hodder, 1982-01-14 Material culture the objects made by man provides the primary data from which archaeologists have to infer the economies technologies social organization and ritual practices of extinct societies The analysis and interpretation of material culture is therefore central to any concern with archaeological theory and methodology and in order to understand better the relationship between material culture and human behaviour archaeologists need to

draw upon models derived from the study of ethnographic societies First published in 1982 this book presents the results of a series of field investigations carried out in Kenya Zambia and the Sudan into the archaeological remains and material culture of contemporary small scale societies and demonstrates the way in which objects are used as symbols within social action and within particular world views and ideologies

Animals as Disguised Symbols in Renaissance Art Simona Cohen,2008 The relationship between medieval animal symbolism and the iconography of animals in the Renaissance has scarcely been studied Filling a gap in this significant field of Renaissance culture in general and its art in particular this book demonstrates the continuity and tenacity of medieval animal interpretations and symbolism disguised under the veil of genre religious or mythological narrative and scientific naturalism An extensive introduction dealing with relevant medieval and early Renaissance sources is followed by a series of case studies that illustrate ways in which Renaissance artists revived conventional animal imagery in unprecedented contexts investing them with new meanings on a social political ethical religious or psychological level often by applying exegetical methodology in creating multiple semantic and iconographic levels Brill s Studies on Art Art History and Intellectual History vol 2

Animal Messengers Regula Meyer,2015-05-29 An animal by animal guide that reveals the meaning behind each encounter we have with animals Provides sophisticated psychological insight into encounters with more than 150 animals birds reptiles insects and aquatic life Explores how animals reflect our inner world drawing our attention to inner turmoil relationship issues spiritual growth and the deepest needs of the soul Explains how the meaning of each encounter depends on whether the animal was hunting fleeing hiding or acting indifferent when sighted We each feel connections to animals in our own way Some of us have pets Others admire animals in the wild Because the outer world often reflects our internal states and animals are highly sensitive to our energies each encounter with an animal signals something about our inner world and innermost concerns The spontaneous surprising contacts are the

telling ones a sparrow landing next to you a fox darting across the road or a bee alighting on your hand However even regular encounters with our pets can draw attention to our inner world and what needs to be thought over and grappled with from psychic turmoil and relationship issues to spiritual growth and the deepest needs of the soul Providing sophisticated psychological insight into encounters with more than 150 animals birds reptiles insects and aquatic life Regula Meyer explores the messages each animal provides for us on a personal level when we encounter them She explains how the meaning of each encounter depends on whether the animal was hunting fleeing hiding or acting indifferent when sighted For example a fleeing animal is prompting you to pursue a subject consciously while a hiding animal tells you to patiently observe something and draw insights from it The author shows how animal encounters in the wild cause us to contemplate the present moment and inspire the flow of our perceptions leading us to meditate on important concerns we may be ignoring or unaware of Pets and other animals we see every day act as intensifiers of the energy for which they stand With this animal by animal guide you can discover the deep meaning behind your encounters with animals and the messages they bring as oracles of our souls

The Heart of the Pearl Shell James F. Weiner, 2023-11-15 For the Foi people who live on the edge of the central highlands of Papua New Guinea the flow of pearl shells is the heart of their social life The pearl shell is the exchange item that mediates the creation of their most important sexual and social roles **The Heart of the Pearl Shell** analyzes a number of myths of the Foi people elegantly bringing together significant ethnographic materials in a way that has important implications for the development of social theory in anthropology and in Melanesian studies Scholars of semiotic symbolic anthropology and of comparative religion will also share the author's interest in the meaning and role of mythology in Foi culture Instead of relying on orthodox methods of Freudian or structuralist interpretation James Weiner assumes there is a dialectical relationship between the images of Foi myth and the images of the Foi's social world He demonstrates how each set of these images is dependent upon the other for its creation This innovative study locates Foi social meaning in the re-creation and attempted solution of the moral dilemmas that are crystallized in mythology and other poetic usages This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice

reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 **Holy Axiom** Art Koroma,2014 TRUTH EXPOSED THE BIBLE IS A MYTH It is as though a dark thunder cloud is hanging over humanity The atmosphere is sultry Man s intuitive faculty labors sluggishly under a heavy pressure Only the nerves affecting the senses and human instincts of the bodies are in a highly strung condition Artificially stimulated through the error of a wrong doctrine a false religion and self delusion In this respect the man of today is not normal but is burdened with a morbid sexual instinct aggravated tenfold for which in a hundred forms and ways established a religion that has today become the ruin of all humanity Infectious and contagious as a plague all this gradually influences also those who still seek desperately to cling to an ideal that floats half hidden in their subconscious mind They indeed stretch forth their arms longingly towards it but ever again after a glance at their surroundings drop them with a sigh of hopelessness and despair Utterly helpless they observe with horror how swiftly the clear vision regarding morality and bad habits is obscured how the capacity to judge is lost and how these concepts change to such an extent that so much which only a short time before would still have aroused disgust and contempt is very soon regarded as quite natural not even causing surprise But the cup will soon be filled to the brim A terrible awakening must come In this sultry atmosphere the Holy Axiom grows ever more dense and ominous At any moment now the first flash of lightning may be expected rending and lighting up the darkness and brilliantly illuminating the most obscure corner so relentlessly and sharply as to bring liberation to those striving for light and clarity but destruction to those who have no longing for the Light **Ritualized Homosexuality in Melanesia** Gilbert H. Herdt,2023-04-28 This book contains the work of seven leading anthropologists on the subject of ritualized homosexuality and it marks the first time that anthropologists have systematically studied cross cultural variations in homosexual behavior in a non Western culture area The book as a whole indicates that contemporary theories of sex and gender development need revision in light of the Melanesian findings This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984 This book contains the work of seven leading anthropologists on the subject of ritualized homosexuality and it marks the first time that anthropologists have systematically studied cross cultural variations in homosexual behavior in a non Western culture The Unruly Woman Kathleen Rowe Karlyn,2011-01-20 Unruly women have been making a spectacle of themselves in film and on television from Mae West to Roseanne Arnold In this groundbreaking work Kathleen Rowe explores how the unruly woman often a voluptuous noisy joke making rebel or woman on top uses humor and excess to undermine patriarchal norms and authority At the heart of the book are detailed analyses of two highly successful unruly women the comedian Roseanne Arnold and the Muppet Miss Piggy Putting these two figures in

a deeper cultural perspective Rowe also examines the evolution of romantic film comedy from the classical Hollywood period to the present showing how the comedic roles of actresses such as Katharine Hepburn Barbara Stanwyck and Marilyn Monroe offered an alternative empowered image of women that differed sharply from the suffering heroine portrayed in classical melodramas

Technological Choices Pierre Lemonnier, 2013-10-15 Technological Choices applies the critical tools of archaeology to the subject of technology and its impact on humankind throughout the ages An examination of the challenges technological innovations present to various cultures Technological Choices asserts that in any society such choices are made on the basis of cultural values and social relations rather than on the inherent benefits in technology itself Of course this revolutionary viewpoint has critical implications for contemporary Western societies Based on case studies covering a wide range of chronologies and geographies Technological Choices moves rapidly from Neolithic Europe to the modern industrial age stopping on the way to examine the tribes of Papua New Guinea rural Indian and North African societies as well as several European peasant communities The techniques studied range from the manufacture of stone implements to the development of high tech transportation devices With its breadth of subject matter and multidisciplinary approach Technological Choices offers new insight into the interrelationship between technology and society Also unprecedented is the book's emphasis on the functional aspects of material culture
